## Conservation as a Service

**Option 1** We offer **free** methane conservation to oil producers who can supply greater than 500 m<sup>3</sup>/day of vented or stranded natural gas. Stop paying for combustion - *just plumb us in!*

**Option 2** Producers who generate their own power and supply our ohmm™ mining skids will earn **\$0.035 / kWh** up to 90 kW per site. Above 90 kW earn **\$0.040 / kWh**.

**Option 3** Producers who generate their own power and purchase an ohmm™ mining skid will earn a **MINIMUM of \$0.06 / kWh, guaranteed!**

Our proprietary ohmm™ bitcoin mining skids are portable, plug-and-play, remotely controlled, meet all spacing requirements

**and do not impact site operation in any way!**

**Power input:** 240VAC, 3-phase 4-Wire. Alternative input configurations available.

**Applications:** Vented & flared methane / bottlenecked facilities / low value gas / idle generating sets
