

Mama Anita's Farm

Planting & Care Guide

Everything you need to help your plant settle in and grow.

PHILODENDRON (SPLIT-LEAF)

A bold tropical plant with unique, deeply cut leaves that adds structure and beauty to any garden.

Sunlight

Partial sun to filtered light is best
Avoid harsh direct sun all day

Water

Water when the top soil is dry
Usually 1–2 times per week
Do not overwater

Soil

Well-draining soil
Add compost for best results

Planting Tips

- Great for garden beds or large pots
 - Give space to grow and spread
 - Can be supported or left natural

Care & Growth

- Remove older or damaged leaves
- Wipe leaves occasionally to keep them clean
- Low maintenance once established

Watch For

Yellow leaves = too much water
Burn spots = too much direct sun

Bring bold greenery to your space
