

Mama Anita's Farm

Planting & Care Guide

Everything you need to help your plant settle in and grow.

MULBERRY TREE

A fast-growing fruit tree that produces sweet, delicious berries and provides great shade.

Sunlight

Full sun is best (6–8 hours daily)
More sun = more fruit

Water

Water regularly while establishing
2–3 times per week
Once established, more drought-tolerant

Soil

Well-draining soil
Grows well in a variety of soil types

Planting Tips

- Plant in a sunny, open space
- Allow room to grow (can become large)
- Great for shade and fruit production

Care & Growth

- Prune to shape and control size
 - Produces fruit seasonally
 - Easy to grow and maintain

Watch For

Dropping leaves = stress or lack of water
Too much shade = fewer fruits

Sweet fruit and shade for your garden
