# About InspireSCE.ai

## Vision

To inspire individuals and organizations on their supply chain excellence journey, meeting them where they are and guiding them toward achieving their future-ready goals.

# Mission

My mission is to educate individuals and organizations in building future-ready talent at the intersection of supply chain excellence, artificial intelligence, and digital transformation.

# Core Competencies

## SCOR AI Education Stack

Applied methodology utilizing proven approaches, i.e., Supply Chain Excellence and the SCOR model, emphasizing coaching and mentoring as the key methods for talent and leadership development.

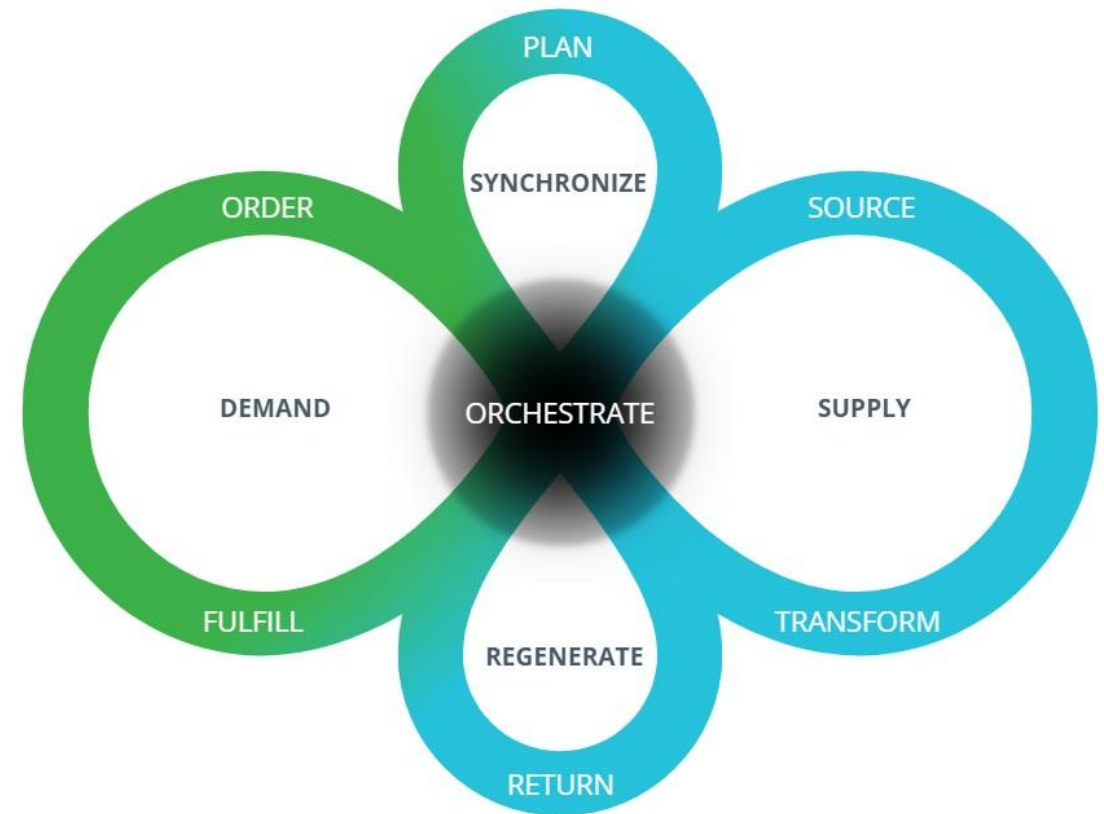

## Actionable Intelligence

Provide actionable insights based on real-world data, analysis, and trends that influence strategic decision-making.

## Collaborative Research

Focus on advancing knowledge and methodologies that support dramatic improvements in supply chain performance.

## SCOR DS Model

# Performance Drive Learning Advisory Services

**Objective:** Develop next-gen supply chain leaders through a learn-by-doing masterclass.

**Approach:** Team-based, hands-on program using SCOR DS for end-to-end supply chain improvement.

**Focus:** Real-world, impact-driven initiative aligned with business priorities.

**Tools:** Strategic insights, AI-enabled analytics, and industry best practices.

**Development:** Builds leadership skills through guided mentorship and iterative problem-solving.

**Outcomes:** Delivers measurable results in operating margin, inventory turns, ROIC, and revenue growth.

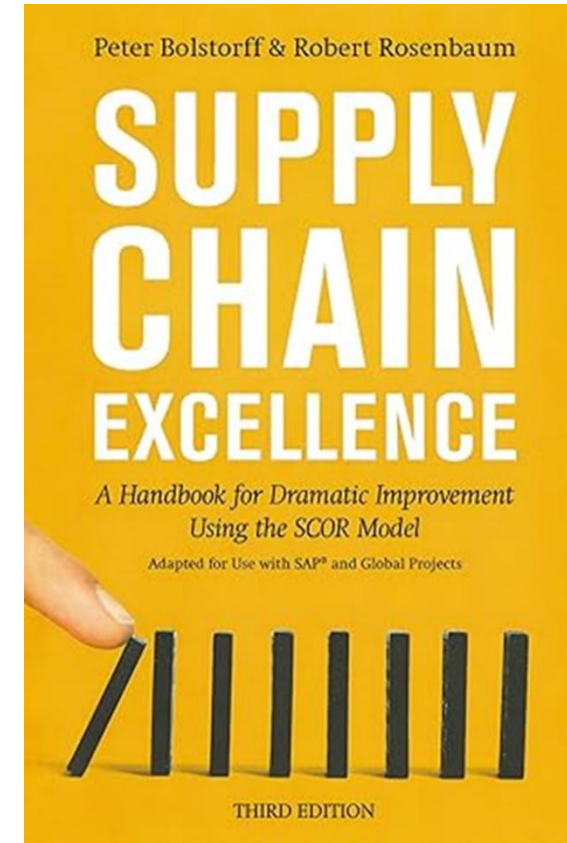

**Value:** Empowers talent to apply knowledge, implement solutions, and drive shareholder value.

# Performance Driven Learning Programs Deliver 12-Month ROI

## Financial Impact Proofpoints

26 clients - 90 supply chain  
improvement programs - \$202M of  
cumulative Cost-to-Serve benefits  
on \$13.5B of aggregated client  
revenue
