The Town of Ossipee was awarded a grant from the NC Division of Water Infrastructure to evaluate the water system. The Town has contracted with local engineering firm (Alley, William, Carmen & King) to conduct this evaluation and mapping of the system. The mapping portion of the evaluation is scheduled to begin on January 5<sup>th</sup>, 2026, and will include location water mains. Services, fire hydrants and valves. During this process, you may observe AWCK employees in high visibility clothing recording the GPS locations of the water infrastructure. All this work should be contained to the Right of Way or Public Utility Easements; however, the surveyors will be working throughout the Town over the next four months and are here to collect the locations of Town owned water infrastructure. Should you have any questions, please call Jon Pendergraph with Alley, William, Carmen & King at 336-226-5534.

Thank You!
