

Native Cellars is here rooted in the art of cultivation, our journey began in the legendary terraces of Humboldt County, where sun, soil, and craft define the world's finest in agriculture and farming.

Now, we bring that same passion, precision, and deep respect for the land to Napa Valley, the most esteemed wine region in the world.

Native Cellars is proudly Native American woman – owned and built on a foundation of heritage, craftsmanship, and innovation inspired by culture.

NATIVE

Cellars

Crafted in the heart of Napa Valley, Native Cellars is more than a wine, it is a love letter to the earth and the ancestors who still whisper through its soil. Founded by Lindsey Renner, a Wailaki woman of the Round Valley Indian Tribes, each bottle carries the story of her deep-rooted connection to land, lineage, and legacy.

Lindsey walks the vine rows with reverence, tending to the earth as both student and steward. Her hands, shaped by generations of land-based wisdom, bring forth wine that reflects the rhythm of the seasons and the spirit of place.
