\$260.70 per day

\$662.10 per week

\$1,565.25 per month

All hydraulic means easy maintenance, no downtime, and the most efficient use of your horsepower to get the job done. Weight, balance, stability, and tine speed allow this tiller to work where others can't. The open design allows for easy access to the hydraulics when maintaining or repairing. The heavy design means your tiller works for you instead of tossing you around. The tine drive motor is directly mounted to the tine shaft, resulting in a system so durable the original tiller was rented out for more than 20 years.

Counter-rotating tines break up the most difficult soil, clay, or sod. The wheel drive and tine drive work independently of each other to allow your tilling travel speed to be adjusted to the soil conditions. •

- Marked grease points allow for easy maintenance
- Free-wheeling hubs unlock to transport the tiller without starting the engine
- Counter-rotating tines cut through sod and hard-packed soil
- Hydraulics are easily accessed for maintenance and repair
- Simple controls are easy to learn and easy to operate
