

Opulent Giant Schnauzers Puppy Vaccination Schedule

Below is a recommended vaccination schedule for your Giant Schnauzer puppy. Always consult with your veterinarian to ensure the schedule is tailored to your puppy's specific needs.

Age	Recommended Vaccines & Notes
6 - 8 weeks	Distemper, Parvovirus (DHPP - 1st dose)
10 - 12 weeks	DHPP (2nd dose), Bordetella (optional based on lifestyle)
14 - 16 weeks	DHPP (3rd dose), Rabies (required by law)
12 - 16 weeks	Leptospirosis (optional, based on risk)
6 months	Spay/Neuter consultation
12 months	DHPP Booster, Rabies Booster
Annually	Bordetella (if boarding or grooming often), Leptospirosis (if risk persists)
Every 3 years	Rabies and DHPP booster (if vet-approved)
