

Lawn Builder

Lawn Builder is a high-quality blend of soil, sand, and organic matter specifically formulated for the construction of building up and establishing new lawns. This mix is designed to provide an optimal growing medium that promotes healthy grass growth, ensures proper drainage, and enhances soil structure.

It is suitable for a variety of lawn types and can be used in residential, commercial, and recreational landscapes. Once your lawn has been prepped and at the finished height with the Lawn Builder you can use Intelligro Topdressing Mix to level off and seed into.

Benefits

- Healthy grass growth
- Easy application for spreading and levelling
- Great for seed germination and turf establishment
- Optimal drainage

Compliance

- Soil is Heavy Metal tested through Hill Laboratory
- Soil sourced from approved sites
- Compost is BioGro Certified & NZ445:2005 compliant
- Renovation Sand PSD
