

Pine Mulch

Pine Mulch is produced using carefully selected recycled tree trimmings that are aged to create a natural looking product. This eco-friendly mulch is designed to enhance soil health, provide an attractive ground cover, and support sustainable and economical landscaping practices. Very popular with clients who are wanting to cover larger areas or who require a more cost-effective mulch. Laid at 100mm depth Pine Mulch becomes an effective weed suppressant barrier as well as retaining moisture levels and helping maintain consistent soil temperature. Pine Mulch is also **CSS Recycled Mulch - Coarse Grade approved**
