

“Tanyika went above and beyond what I expected when I hired her for the ERC program. I was impressed with her knowledge and abilities in helping our business with ERC and other needs. Tanyika managed the ERC process from beginning to end and obtained the ERC refunds for our businesses in a matter of weeks. I was super impressed!

I highly recommend employing Tanyika Sims for the many needs that small businesses encounter daily: ERC; Taxes; Insurance; Accounting and other needs.”

Mark Smith, President

Smith Foods
November, 2023

"I have had the pleasure of working with Tanyika over a 3 year period during which she transformed our FBO into a professional looking facility that has since brought numerous positive comments and congratulations to our airport.

Additionally her knowledge of the aviation business, particularly of the charter side has brought customers from all over the country and Canada to use the facility based on word of mouth, primarily from those aircraft crews who have used the FBO and received the treatment of the employees trained by Tanyika.

Tanyika has an infectious exuberance and can do attitude that improves any situation she deals with!"
