TERRORISM

CRIME

NATURE

The FORCE PROTECT staff includes consultants and designers with advanced training and expertise in physical and cyber security (crime prevention, anti-terrorism, natural disaster mitigation). Together, this collective experience gives us insight into all aspects of security measures that can be integrated into any project through site planning, security engineering, building design and security force procedures. This knowledge allows us to see the global scope of the project and offer viable approaches to achieving asset and life protection.

Our consulting services include:

- Risk Assessment (Threat, Criticality, Vulnerability, Quantitative/Qualitative Risk)
- Risk Mitigation Design Guidance (detailed report)
 - Perimeter Security Systems
 - Crime Prevention Through Environmental Design
 - Architectural Security
 - Blast Protection
 - Electronic Security Systems
 - Cyber Security
 - Policy & Procedures (Security force, employees, visitors, contractors)
 - Life Cycle Cost Analysis of All Measures
- Design Team Support (design drawings, specifications, hardware/software schedules)
- Authorship and Training of Crisis Preparedness and Response Procedures (Active Shooter, Bomb Threat, Hostage Situation)

CLIENT LIST INCLUDES: Department of Veterans Affairs (95 VAMCs, 153 CBOCs)
 Department of Defense/US Army Corp of Engineers & USAF
 Department of the Interior/National Park Service
