

# Reinholds: Missionaries to Mexico

Jan. / Feb. 2024

## One Thing Leads to Another

Recently I was working on my computer at a restaurant/apartment lobby. The manager (Maria) looked Hispanic, so I asked her where she was from. She told me she was born in California, but her parents were from Mexico. When I told her we lived in Mexico she asked what we do there. I mentioned we did church planting and medical missions, but I was in the States having cancer treatments. Maria then began telling me about her father who died from cancer, which brought up the subject of seeing him once again in heaven and God's desire for all to be with Him for eternity. It was then Maria conveyed her deep desire for her and her family to know God as well. This allowed me to share with her God's plan for eternity as well as His desire for a personal relationship and purpose for her while here on earth. She asked me how she could receive Christ, but she wanted to do this at home so I explained to her what I did to receive Christ and gave her a tract with the plan of salvation with a heartfelt prayer she could pray to receive Christ into her heart. Surprisingly the tract had the address of a church that was nearby where she lived. I had a prayer with Maria, and she assured me that what we talked about is what she needed and was going to do when she got home.

## Good News, Great Results

As a result of your faithful giving, a church that we began in 2001 as a mission is now celebrating their anniversary once again, but in their new auditorium. Also, because of your faithful prayers the mission we are helping to restart is beginning a new children's ministry on Saturdays. Please be in prayer for both of these ministries as they continue to grow and serve the Lord in Mexico.

## More Opportunities Ahead

Since October I have finished four series of chemotherapy treatments along with a month of a continuous flow chemo treatment in February for my Leukemia (ALL). While in the hospital for the month I found out that nurses like candy. I placed a box with assorted snacks at the entrance of my room with a note reading, "Nurses' Stash (snacks), Enjoy, thank you for serving the veterans" along with salvation tracts. Also, before I left the hospital, I was able to talk to the head doctor over Hematology, (the blood cancer center). We had a productive conversation on the correlation between the cure for blood cancer and the blood of Christ which is the cure that treats the cancer of sin in our lives. He acknowledged the importance of that and promised to consider this. I'm confident that God's word does not return void. Pray for Dr. Huang's salvation.

Now I'm in the Nashville VA transplant center for one final evaluation before I undergo my bone marrow transplant. Through your faithful prayers a doner has been found with a 100 percent match through the Be the Match program.

After my evaluation the doner is contacted and the process begins to coordinate the date for my transplant. From what I heard from some it will be quite a ride so please pray all goes well and this journey will be a fruitful one for the glory of God.

## Medical missions Update:

The medical missions trip begins on the 14<sup>th</sup> of March, and we were able to send Bibles, wordless book bracelets, glasses, hygiene materials such as toothpaste and toothbrushes and plenty of vitamins. Pray for many to receive Christ as their Savior.

## Other prayer Request

- Church growth at Nueva Vida Iglesia Bautista.
- God's continued healing of Leukemia.
- Continued witnessing opportunities.
- Childrens ministry to

Thank you so much for your faithful prayers and financial support.

In the Potters Hand,  
Steven Reinhold
