

Reinholds: Missionaries to Mexico

Resent Returns on Your Faithful Prayers.

The following are just a few results of your past recent prayers. One person I requested prayer was, Erika. Previously I called her Maria. As a result of your prayers, I found out that Erica went home after we talked and received Christ as her Savior. Now she is reading the Bible with her family and growing in the Word.

Your faithful prayers and support for a recent medical missions trip resulted in over 1,823 medical consults with 833 persons hearing the gospel, 604 of them receiving Christ and 300 Bibles given out. We praise God for your special donations and prayers. For details and pictures visit our webpage for an update by the end of the first week of May.

Another long-standing prayer request was for some friends of our children who are not Christians. As a result, they have finally received permission to attend Bible clubs and prayerfully soon they will receive Christ.

Thanks to your faithful prayers and support two stolen Ac's are being replaced and secure walls have been built to protect a church we are helping restart.

Staying Focused

I was expecting to be going through a bone marrow transplant, but everything happens according to God's timing. When my March bone marrow biopsy returned inconclusive, I was admitted into the VA hospital in Houston once again for continual chemotherapy the whole month of April. At the end of April, I had undergone another bone marrow Biopsy, and the results are favorable, but the decision still hasn't been made on when I will be receiving a Transplant. It seems likely that a decision will be made soon, with a more conclusive answer. Please be in prayer for that.

During last month's stay God had more people designated to cross my path. One of which was Dennis, a man with the same diagnosis I have staying in a room next to me. His Leukemia case is now terminal with two months left to live. He was not accepted for as a bone marrow transplant. I met with him a few times including one final time, minutes before I was checking out of the hospital.

After listening to his situation, he indicated his openness to receiving hope for a final positive two months here on earth and a hopeful eternal future. I shared my hope for him in finishing well and receiving an eternal new body without any sickness or pain in heaven. I shared with him the significance of the salvation bracelet I wore and God's simple plan of salvation. Dennis indicated that he would like to receive a track I offered to him with this plan on it along with a prayer to receive Christ. I also gave him one of my bracelets a well. I finished by asking him If he would like me to pray with him. He said he would like that. Together we connected with a heartfelt unified prayer to the Doctor of all doctors, Jesus Christ. Please pray for Dennis salvation and that he finishes well.
