

Reinholds: Missionaries to Mexico

MAY / JUNE 2024

Celebration

As my wife and I celebrated our 33rd wedding anniversary in May, our first church planted in Mexico celebrated their 22nd year as a lighthouse. Recently this light was able to reach a 93-year-old man and his adult daughter with the Gospel during door-to-door visitation. These two souls heard and accepted God's plan of Salvation that day. Thank you for your faithful prayers and support to keep the Light shining in Mexico.

G514 Ministry

G514 represents a ministry that I am proud to be a part of from its beginnings as well as its ongoing productive medical missions' ministry. G514 has recently reproduced another evangelistic outreach ministry that returns to these remote areas and continues to follow up and to provide more medical and evangelistic support. It came into being because of our concerns for discipleship follow-up on our other main medical missions' trips. This ministry, G514 led by Julio Jimenez has continued from the main "Reaching

My People Ministry" to begin these new outreach missions' trips to follow up spiritually in these remote areas of the mountains of Guerrero and Oaxaca, Mexico. Please pray for them.

Saturday Morning Live

A new ministry began in May at the church in the Southeast part of Monterrey called Nueva Vida. Each Saturday the church invites the neighbor children to Bible Club where they enjoy Bible stories, songs, snacks and a fun time together. We are pleased with how they have responded enthusiastically to this outreach. Please pray the Lord will use this time to be a blessing in the lives of these children and reach their parents and families for the Lord. Please continue to keep Marlene and Belen in your prayers for their Salvation.

Staying Focused

My bone marrow transplant came and went uneventfully. Now the army of the donor's cells are taking over mine. The doctors are doing a good job of ensuring my immune system is welcoming the transplant properly through an extra strong series of chemo. My favorite part in this journey is the unending opportunity to share God's Word with other patients and the hospital staff. We appreciate your continued prayers in this process and want to thank you so much for all your prayers during these past few months. The Lord has been so merciful and gracious. Praise the Lord!

Other prayer Request

- God's continued healing of my Leukemia.
- Continued witnessing opportunities at home and abroad.
- Church growth at Nueva Vida Iglesia Bautista.

Thank you so much for your faithful prayers and financial support.
In the Potters Hand,
Steven Reinhold
