Medical Missions to Oaxaca

Once again, this Mountain Ministry of ministering to people's physical and spiritual needs has proven fruitful. The trip was long and hard. We had a flat tire, but God used it to allow us to witness to a tire repair person. When we arrived, one lady who works in the pharmacy area whose husband worked with me before he died approached me and said she had never won anybody to Christ but wanted to share the gospel and ask me if I could show her how. So, I showed her the gospel plan as she wrote the texts in her Bible while I went through the process of sharing the gospel with her. Then I had her repeat the process back to me. Then I had her observe me win someone to the Lord and I stayed as she shared Christ and won someone else to the Lord. Then I let her go on her own, observing how she was doing. After that another young lady who helps with processing the people approached me with the same question asking me to show her how to win someone to Christ. I repeated the process with her as well. After winning several to the Lord these ladies felt very confident for the next two days in winning many to the Lord.

What an ideal place to do hands on training. After it was over, they thanked me for showing them how to share the Gospel. Over 152 people accepted Christ as their personal savior as a result.

Children bring Moms Special Bible Club

Forty-six children brought eleven mothers to a special Bible club presentation in the poorest area of our town, with a high suicide rate and drugs. This was a tremendous opportunity to have a special class for the mothers as well as present the plan of salvation. These children come on their own for a bi-weekly Bible club and on this special occasion the mothers were invited. We weren't sure how the outcome would be for this area, but God is faithful and blessed us with this outcome.
