# **Reinholds: Missionaries to Mexico**

#### Step by Step were moving forward

We were able to bring the mobile dental truck into the steel shop for the next stages

of remodeling. This week we are getting a diamond plate aluminum floor put in as well as some stainless-steel holding tanks for clean water and wastewater along with a few other remodeling projects. The next step is to prepare the truck to receive more plumbing and electrical for the dental equipment and dental chairs. Step by step we are moving forward as we prepare the vehicle; we pray the Lord will prepare the hearts of those who receive this medical attention will also receive His Word and be saved. Also pray for the owner of the steel shop and his family that one day he and his family will receive the gospel. Each step along the way has caused us to be aware that we are not only remodeling a vehicle, but lives are being remodeled as the Lord daily places us in the paths of new people.

#### Who says?

Who says a church cannot grow during these difficult times? It did in Acts, and it is for us today by God's grace. This past week two new families started attending.

Who says to wait for the corona virus to end before starting new ministries outreaches? It did not stop Philp in the Bible and it hasn't stopped us in opening up several new Bible studies this past month. Who says we cannot be more effective today with all the turmoil around us than when times are easy? I know who says. It's the devil. He's the one who doesn't want us to redeem the time especially when the days are evil, and people are more receptive to the Gospel.

We sure did not pray for this pandemic, but as we are trying to take all the necessary precautions on the mission field of Mexico, we are still living life to its fullest serving our Lord. We've decided not to miss out on life. We will continue to witness, pray, preach, and teach the word.

Right now, I'm giving a study on the mind of Christ to our leaders in the church, we ourselves are growing and preparing for the coming of Christ and nothing should stop our light from shining. We pray for you as well to live today as the Lord is coming back.

We thank you for your much needed prayers and financial support during these difficult times.
