

Gong Sound Experience & Energy Healing

Come join us for a special and unique event; where George Monoson will be playing six gongs, a variety of singing bowls, a crystal lyre, a sounding bowl, crystal wands, drums, and many other instruments. While you relax and bask in the vibrational frequencies and sounds, Denise Knutson, energy healer, will be channeling divine energy to the group.

Testimonial: “A Quantum Healing Gong Experience of the Finest!”

Over the years I've experienced many amazing sound healings with gongs and singing bowls, yet nothing even remotely close to the EPIC Gong Experience that George and Denise facilitate on a regular basis. It's an out of body experience that is almost indescribable. It starts out with relaxing the body and quieting the mind. Then seemingly out of nowhere, the first whimsical chimes and bells float around the room. Then foreign and yet familiar tones of various sound and musical instruments start building without ever becoming too overpowering. Everything ebbs and flows, stimulating profound release, reflection, and realization. Denise and George are masters at setting up a highly intentional field for quantum healing of the finest as participants drift in and out of deep and vivid Theta dream states. This is a tremendous treat for body, mind, and soul that will echo in your soul for a long time to come and assist you in coming into a higher resonance with yourself and life at large. I highly highly recommend it!
