# WHY?

*10 million staff short by 2030*

*20% The percentage of health workers in the United States who have left their jobs since the start of the pandemic.*

*1 million The number of nurses over age 50 in the United States.*

*83 The number of countries that fail to meet the most basic standard of health care workers.*

*2 The number of doctors for every 10,000 people in sub-Saharan Africa.*

*Ref: Project HOPE*

*\*Europe is currently grappling with a shortage of 2 million healthcare professionals, as revealed in the OECD report on Health Systems Resilience in February 2023*
