

Mission The World Health Service exists to accelerate global health equity by pioneering sustainable, preventive healthcare models rooted in innovation, community empowerment, and cross-sector collaboration.

Overview

The World Health Service is a fiscally sponsored organisation of Legacy Global (501(c)(3)).

We are committed to delivering on UN Sustainable Development Goal 3: Good Health and Wellbeing, by improving individual health and wellbeing, strengthening health systems, and creating new, meaningful jobs. Our work is grounded in the implementation of all 17 Sustainable Development Goals.

We are pioneering new healthcare models globally by creating a knowledge transfer platform that supports health economies through the integration of human, social, and structural capital.

Why Invest

Investing in the World Health Service offers an opportunity to build a sustainable, community-powered model of healthcare that leaves no one behind. Your support will:

- Scale the WHIS Model globally (WHISKids, @work, Seniors, Green, Technology etc)
- Fund proven digital and community-based innovations
- Deliver equitable health outcomes
- Strengthen local and national health systems
- Reduce healthcare costs through prevention

Investment Opportunities

The World Health Service supports a wide range of high-impact, scalable initiatives:

- Antimicrobial Resistance (AMR) & Sepsis Solutions – in collaboration with the Infection Management Coalition (IMC)
- Digital Health Infrastructure – scalable, AI-enabled, preventive health tools (Mental Health etc).
- Women's Health – equity, access, and targeted innovations
- Global Social Prescribing Alliance – community-based models of care
- Healthy Ageing Clinics – addressing the needs of a growing older population
- Space Medicine & Innovation – adapting frontier research for terrestrial health systems
- Climate-Resilient Health Infrastructure – addressing health impacts of the climate crisis
- Wellness as a Service (WaaS)

Expected Impact

- Improved health outcomes and wellbeing across partner regions
- Reduction in avoidable hospital admissions and healthcare system burden
- Creation of 1,000+ meaningful jobs within 36 months
- Strengthened global health infrastructure
- Increased adoption of digital health and social prescribing solutions
- WHIS will generate £12+ of SROI for every £1 invested over 12 months
- Our model is self-sustaining after 12 months

Global Alignment - Our model aligns with international strategies and initiatives led by the UN, World Bank, and national governments. We partner with public, private, and nonprofit actors to drive systemic health improvements.

Vision - By investing in the World Health Service, you're not only funding innovation—you're shaping the future of global health. Together, we can transition from reactive care to proactive, preventative health for all.

Outcome: The model will empower communities and individuals to manage their own health and wellbeing. Investors have the opportunity to create new and meaningful jobs while pursuing the UN sustainable development goals. Investments will be made to strengthen health systems and reduce demand on Health and Social care using proven, evidence-based research. All investments would be collaborated on with trusted partners to establish a new model of healthcare focused on preventing disease to facilitate healthier communities and within a sustainable economic system.
