Lebawi International Academy Scholars Take Action

Lebawi International Academy Scholars Collaborate for Change

After presenting on “limited access to feminine hygiene products” at the 2025 CBE Forum, CBE Student Ambassadors at Lebawi International Academy took further action by creating a patent-pending sanitary product to address a challenge that often prevents girls from attending school during menstruation. Watch the interview at youtu.be/usU3mcl_bAY

Message from the Founder, Dr. Ife

“I am inspired by what becomes possible when education extends beyond the classroom and into our communities. From students addressing real-world issues to educators and community partners supporting their action, the CBE Movement continues to grow. Thank you for believing in education’s power to create meaningful change.”

CBE Community Partner Spotlight

Addis Ababa University is advancing Community-Based Education in Ethiopia. After hosting an Education in the 3rd Millennium Speaking Tour talk, students continued the momentum by establishing the first CBE University Club, creating opportunities to connect academic learning, student leadership, and meaningful community action.

Help Us Develop CBE Centers Around the World!

Join us in building Community-Based Education Centers around the world—spaces where academic learning, community wisdom, and innovation come together. We're seeking partners, supporters, and collaborators to help empower youth to lead, solve real-world challenges, and create sustainable impact in their communities.
