LIBERTY ISLAND

AND THE STATUE OF LIBERTY

For over 100 years the Statue of Liberty has stood as a symbol of hope & freedom.

Frédéric Auguste Bartholdi designed the copper statue which stands 12 stories tall atop a pedestal created by renowned American architect Richard Morris Hunt.

Its supporting skeleton was devised by the builder of the Eiffel Tower, Gustave Alexandre Eiffel himself.

The Statue, a gift from the French people to celebrate the centennial of the Declaration of Independence, represents the deep history & friendship shared between the United States & France.
