PIOLI — x — ONEIDA®

The Pioli x Oneida collaboration unites Oneida's long-standing reputation for quality with Pioli's modern design sensibility, creating a collection crafted for operators who care as much about performance as presentation. The result is dinnerware that balances resilience with artistry, giving chefs and restaurateurs a canvas worthy of their culinary vision.

Produced by Pioli in their state-of-the-art facilities in Turkey, each piece blends contemporary artistry with the trusted durability Oneida is known for. It's a collaboration built for real-world service, offering operators a tabletop that stands up to the rhythm of daily use while bringing refined style to every plate.

PIOLI × ONEIDA®

WHAT WE BRING TO THE TABLE

INNOVATIVE DESIGNS

Design is treated as a living craft. Pioli's approach blends contemporary sensibility with the artistry of traditional porcelain making, resulting in collections that are functional, expressive, and aligned with evolving culinary presentation trends.

5-YEAR NO-CHIP WARRANTY

Pioli x Oneida porcelain offers durable and strong performance, secured with a 5-year warranty against chipping. These collections are tested against edge chipping according to national and international standards based on their shapes.

VITRIFICATION AND FIRING

Thanks to vitrification processes that make the structure of porcelain dense, strong, and water-proof, we elevate its durability to the highest level with a 0% water absorption rate on unglazed surfaces under vacuum. This ensures that the porcelain provides excellent performance and guarantees long-lasting use in hotels and restaurants.

SCRATCH RESISTANT GLAZING

Pioli's SR01 glossy and SR03 matte glazes are engineered to resist scratches from everyday use, staying smooth even against minerals up to 5.5 on the Mohs scale. This advanced protection keeps each piece looking new, maintaining its gloss up to four times longer than standard glazes.

BUILT FOR SERVICE

Pioli dinnerware is built for real-world service, standing up to rapid temperature changes of up to 180 degrees and performing safely in refrigerators, freezers, microwaves, ovens, and commercial dishwashers. Its durable porcelain and advanced glazes protect against cracking, fading, and wear, ensuring lasting shine and reliable performance in every environment.

SUSTAINABILITY

Through continuous research and eco-focused development, Pioli integrates responsible materials, streamlined processes, and health-conscious technologies. Their R&D initiatives support ongoing innovation that respects both people and the planet. Annually, Pioli achieves:

- 26 tons of plastic recycled
- 95 tons of paper recycled
- 66 tons of wood recycled
- 261 tons of porcelain conserved and recycled
- 80 tons of water saved
- 735 tons of CO₂ reduced through recycling initiatives
