

MPR 2025 Food Service Equipment Highlights

Serve Fresh

Hot Water Dispensers, Heated Air Curtain Cabinets, and Heated Merchandisers

The Hatco AWD provides instant boiling water at the press of a button. Hatco also offers several options grab and go hot held menu items. With Heated Air curtain cabinets, sandwich slides, and portable countertop holding equipment, Hatco has a serving option for any operation.

FERMOD

Fermody offers high-temp dish-washer safe, space-maximizing, easily assembled shelving. They're lightweight and have a lifetime guarantee against rust and corrosion.

Refrigerated Storage

Amerikooler manufactures precision-built walk-in coolers. These are built to last and offer a 30-year panel warranty.

Heated Holding and Transport

Mobile Serving Wells and Humidified Holding Cabinets

Serve where you need to with FWE's customizable, mobile, heated serving options and insulated holding cabinets.

The secret to a successful kitchen? Adequate prep work. Make your prep work easier with Sammic Immersion Blend-ers, Veg prep Machines, and Food Processors.

Streamline Prep

Safely Serve and Store

Accurate for Life Thermometers

The Cooper-Atkins Accurate for Life thermometers give readings in less than 6 seconds and carry a lifetime warranty. Available in multiple styles of digital instant read thermometers and cooler thermometers

Dependable Warewashing

Get your dish rooms running at maximum capacity with Jackson dish machines. Built to function at optimum performance every time.

Storage and Transportation

Mobile Carts and Racks, Can Shelving, and Storage

Channel Manufacturing builds all welded stainless steel or Aluminum mobile racks, can racks, dunnage racks, and rolling carts. Need a solution for storing or transporting ingredients or supplies? Channel has you covered.

HOSHIZAKI

Proudly manufactured in Peachtree City, Georgia, Hoshizaki strives to develop original refrigeration and ice making products, designed with industry leading technology.

Ice Makers and Reach-In's

Remote Refrigeration Monitoring

The OneEvent System provides wireless temperature monitoring and notification systems to ensure your refrigerated inventory remains at safe serving levels
