## HEAVY DUTY MODIFIED

Our equipment has done "hard time" in harsh conditions and this has taught us how to meet your very special needs. We don't just add a "security package" to a catalog item; we build them from the ground up knowing the type of punishment they will be subjected to. With ultra-heavy duty construction and tamper resistant features throughout, they are designed and built for the harshest conditions. During the past six decades FWE has been providing "Correctional quality" equipment for correctional institutions of all sizes and security levels. Correctional features are suited for minimum to maximum security environments.

Customize your cart with Heavy Duty Modified (HDM) packages and / or accessories to aid in both the staffs and inmates protection.
