**WF Update #2– 9//25/24:**

This morning the layout of the pits & village was being completed and the dumpsters arrived. Several trailers were put on the salt to get ready for Friday Inspection. Dragging of the course was completed today along with turnouts every  $\frac{1}{4}$  mile starting right after the 2-mile all the way to the 8-mile. Tomorrow we will put the blue line on the course, pits & access road. The course is set a mile up like SpeedWeek was. All of the course signage and mile markers will be done tomorrow.

We will update you again tomorrow.

**WF Update #1 – 9//24/24:**

We arrived in Wendover early afternoon yesterday. This morning we went to the salt and established the centerlines so that the drag team can get to work tomorrow morning. The pits and village have been placed and should be finished soon. The salt is smooth and well wheel packed. It is still a little damp but drying nicely and there is no standing water. The forecast looks dry & hot.

We also had the toilets delivered today and dumpsters will be delivered tomorrow. We will update you again tomorrow.
