

## Honey Do Weekend & Wire Winding Party at the SCTA Building on April 26<sup>th</sup> from 8 a.m. to closing

Attn: SCTA Members

As mentioned at the March Board meeting, we are planning a Honey Do Weekend and Wire Winding Party at the SCTA building. So, we have several large jobs to tackle, I'm hoping to accomplish as much as possible.

Along with all the trailer/generator-based maintenance performed on a regular Honey Do, we need to replace the canvas signs mounted on the "sign trailers" that sit at the end of our course and the BLM paved entrance road. One of the trailers suffered a fender bender, I won't mention any names (if you want details, ask Brian) so it needs to be straightened out. We will also be assembling new "timing trap end signs" since we have NO spares. Due to recent high winds the roof of the pump house needs major repair as well. New plywood and shingles are already at the building for this task. There is one last spool of wire that did not get sorted out last year from the wet salt. It was the worst reel of the bunch. If we have enough good folks show up, this may be able to get done. The will probably take up at least one whole day if not two.

Some of the listed items on the attached and below lists are generic. Please contact Werner Schwarz if you require any help with your assigned or unassigned maintenance/repair projects. This is an aggressive amount of work, so all Clubs need to make sure to supply volunteers for the day. If your Club only requires a single duty pulled during an Elmo meet per season, you are sort changing the membership. You are more than welcome to spend Friday or Saturday night in your RV or sleeping bag at the SCTA compound. Please forward this email to your Club members! Lunch will be provided.

El Mirage Procedures State: Timing Trailer and Eq. - Gear Grinders, Equipment Trailer – LSR, Tower Side Cone Trailer – Milers, Return Side Cone Trailer - Road Runners, Fence Trailer – SDRC, Announcer Trailer – Sidewinders, Motorcycle Trailer - Gear Grinders and the Registration Trailer - Super Fours
