

Leave My Heart Alone

Verse 1:

I've been walkin' these roads all alone,
Missing you more than I should have known.
Missing you more than I should have known.

Chorus:

Leave my heart alone,
it's broken and torn.
I can't get over your hold,
and the love that we once had.

Verse 2:

Every time I see that old town,
where our love used to abound.
I wish I could turn back the hands of time,
but all I find is a heart full of chime.

Bridge:

In the cold light of the moon,
I whisper your name and it stings like a tune.
I can't erase those sweet memories,
and every star that shines reminds me of your tender decree.

Chorus (repeated):

Leave my heart alone,

it's broken and torn.

Em

I can't get over your hold,

and the love that we once had.
