

## Cubby's Creations

# Test2 (A Country Tale)

Country • G major • 120 BPM

[Verse 1]

Well I rolled into town just as the sun went down  
Dusty boots hittin' pavement on a gravel sound  
Truck bed full of dreams and a heart worn thin  
Chasing down a story where the night begins

[Chorus]

This is test2, a song born on the run  
A little whiskey, a little truth, under that country sun  
Hold tight to the past but look ahead and start anew  
Every road I've traveled leads me back to you

[Verse 2]

Mama's porch light flickered through the summer heat  
Old guitar sang out steady and sweet  
Toastin' to the memories and the hard times too  
Every note a piece of me, in test2

[Chorus]

This is test2, a song born on the run  
A little whiskey, a little truth, under that country sun  
Hold tight to the past but look ahead and start anew  
Every road I've traveled leads me back to you

[Bridge]

Sometimes the night gets long, and the shadows start to crawl  
But the fire in my soul won't let me fall  
With every mile I've made, and every story told  
Test2's the heart that never grows old
