Welcome to the month of May Beautiful Souls!

Spring is officially here! I hope that you are all doing well during this pandemic. It is so important to find ways to stay connected to your loved ones. I have enjoyed finding creative and fun ways to stay connected to mine. It's also a time to be intentional about your self-care routine. Please take advantage of the offers and products that I've shared in this newsletter. Do not hesitate to sign up for a free EO consultation here: **Free EO Consultation**. I would be more than happy to provide you with support and guidance that will help you to determine which oils would be best for you. Also, I will be sending information within the next few weeks about upcoming self care and A Return to love Workshops in June. You can always reach me at [Rose Light and Love](#) or by emailing me at [roselightandlove@gmail.com](mailto:roselightandlove@gmail.com)

Light and love,

Rose

### May Specials

A healthy immune system works like body armor, protecting us from the threats that constantly bombard us. We come into contact with environmental and seasonal threats every day amid all our activities. Thanks to the immune system,

your body is prepared to defend against these threats.

In addition to immune-supporting products like some of those from the doTERRA On Guard® family, plenty of essential oils can help you stay strong all season.

This kit includes:

- Purify 15 mL
- Bergamot 15 mL
- doTERRA On Guard® 5 mL
- Tea Tree 15 mL
- Petal Diffuser
- doTERRA On Guard Sanitizing Mist

Angela Middleton- BeautyCounter Consultant.

Are you interested in all natural skin care products? BeautyCounter is just for you. Over 1,800 ingredients are never used in their formulations—this is called The Never List™—They go above and beyond to test every ingredient against high standards in

pursuit of clean beauty. Right now, new clients can receive 20% off purchases for the month of May. You can order your products here: [BeautyCounter](#).

Below are a couple of popular BeautyCounter products.

#### Why is it Safer?

The Counter+ All Bright C Serum is formulated without ethoxylated ingredients (including PEGs) due to reproductive and developmental concerns (as well as toxicity to the aquatic environment). It's also formulated without dyes. As always, every ingredient used in our formula has gone through our rigorous raw materials screening and testing to ensure it's safe for human health.

#### All Bright C Serum

Meet you on the brighter side.

Countersun Collection

## COUNTERSUN

*All of the cover. None of the concern.*

We chose non-nano zinc oxide for our sunscreens, a safer mineral (physical) blocker that sits on the surface of the skin and bounces sun's rays away – instead of using potentially irritating chemical filters.

*This is safer sun care for everyone.*
