

From Feast-and-Famine to Financial Freedom

A story about talent, exhaustion, and the quiet revolution that changed everything for one freelancer.

Meet Bonita

For **15 years**, Bonita worked in the filming and commercial advertisement industry.

Production companies loved her — her attention to detail, her calm energy on set, and her ability to solve problems when everything went wrong. She was, by every measure, **good at her job**.

But talent alone could not solve the one problem that haunted her: the **feast-and-famine cycle**. Some months she worked 18-hour days, juggling three projects at once. The money flowed in. Then came the famine — weeks, sometimes months, with no calls, no emails, no projects.

Her savings drained. She delayed doctor visits. She skipped meals. She borrowed from friends and paid them back whenever a cheque finally cleared.

Even when work came, payment could take **60, 90, even 120 days** — employers only paid after they got paid by the client.

The Freelancer's Curse

Bonita's experience is not unique. Millions of freelancers live in the same exhausting cycle — brilliant at their craft, yet perpetually one quiet month away from financial crisis.

The Feast

18-hour days, multiple projects, bills paid, groceries bought without checking the bank balance. A brief sense of relief — and the illusion of stability.

The Famine

Weeks with no calls. Savings draining. Anxiety rising. Borrowing from friends. Lying awake at night wondering: *When will the next job come?*

The Delay

Even when work arrives, payment is delayed 60–120 days. The system is designed to pay last — and freelancers bear the cost of that uncertainty.

After 15 years, Bonita was **talented, but exhausted**. She had learned to live in a constant state of financial uncertainty — and had almost accepted it as the price of her profession.

The Advertisement That Stopped Her Scroll

One evening, after another unpaid month, Bonita was scrolling through Instagram. The image was simple. Clean. But the words stopped her thumb:

*"If you're a freelancer, you need **ABUNDANCE** to live in **ABUNDANCE**."*

She stared at it. **Abundance to live in abundance.** It was catchy — but more than that, it felt like someone was speaking directly to her.

She clicked the link. It led to **ALGOINSIGHTS PTE LTD.**

The Meeting with Victor

Bonita was skeptical. She knew nothing about FX trading. The words "algorithm" and "passive income" sounded like things rich people used. But she was also **desperate** — desperate enough to book a meeting with the Founder, **Mr. Victor Ang**.

Victor did not promise her a mansion or a sports car. He simply said:

"Bonita, you are a talented freelancer. But your industry pays you late and inconsistently. That is not your fault — it is a system problem. The ABUNDANCE algorithm solves that by creating a second stream of income that pays you every month — whether you have a filming job or not."

What Victor Offered

- No promises of overnight wealth
- A free algorithm linked to her own account
- Monthly income, independent of freelance work
- No prior trading experience required

The First Three Months

Bonita opened a small account with **\$10,000** — money saved from her last project. She linked the ABUNDANCE algorithm and checked her account once a week, afraid to hope. What she found was something she had never experienced before: **consistency**.

1.5%

Month One

Small, steady trades. A quiet beginning — but something arrived.

4.5%

Month Two

Growth accelerated. The algorithm was learning, adapting, working.

7.5%

Month Three

Not life-changing money yet — but *consistent*. Every month, something arrived.

For the first time in 15 years, Bonita felt a small but real sense of **control**. Unlike her freelance payments — which came whenever the client decided to pay — the algorithm delivered, month after month.

The Transformation

By **month six**, the ABUNDANCE algorithm was generating enough monthly passive income to cover Bonita's basic living expenses — rent, food, utilities. Everything changed.

No More Panic

She no longer panicked when her phone did not ring for two weeks. The silence no longer meant crisis.

She Became Selective

She stopped accepting low-paying, last-minute jobs just to survive. She only took projects she loved, with clients she respected.

Her Work Improved

Because she was less stressed, her creativity returned. Clients noticed. They started recommending her more. Ironically, by worrying less about money, she attracted *better* work.

Bonita's Life Today

Eight months after starting with
ALGOINSIGHTS PTE LTD,
Bonita's life has been transformed.

She works less

Two or three quality projects per month instead of chasing every possible job.

She travels more

Last month she worked remotely from Bali. The **ABUNDANCE** algorithm kept running while she watched the sunset.

She checks her bank with curiosity

Not fear. Curiosity.

That shift — from dread to wonder — is everything.

What ABUNDANCE Really Gave Her

Bonita's story is not just about numbers.

It is about what financial stability *feels like* after years of uncertainty.

Peace of Mind

No more lying awake at night wondering when the next job will come. The algorithm runs regardless of her calendar.

Freedom of Choice

She now chooses work based on passion and purpose — not desperation. That freedom changes everything about how she shows up.

Her Life Back

Time, joy, and the ability to say yes to experiences — not just invoices. Financial security gave her back her identity.

Bonita's Message to Other Freelancers

"For 15 years, I thought financial insecurity was just the price of being a freelancer. Then I found AlgoInsights Pte Ltd. The ABUNDANCE algorithm didn't just give me passive income. They gave me back my time, my peace, and my joy."

If you are a freelancer who is tired of the feast-and-famine cycle — if you are exhausted from chasing invoices, delaying your own wellbeing, and living with financial anxiety — Bonita's story is for you. You do not need to accept uncertainty as the cost of your craft.

Start Small

Open a FX trading account in your name. No large sums required.

Link ABUNDANCE

The free algorithm works while you work — no trading experience needed.

Reclaim Your Life

Consistent income means you choose your work — not your desperation.
