

# From Security Guard to Peace of Mind

A story about financial anxiety, a friend's kindness, and a system built not for traders — but for people who simply want their lives back.

# At 62, Alvin Should Have Been Resting

Alvin was 62 years old. He should have been resting at home – maybe gardening or visiting his grandchildren. Instead, he was working the night shift as a part-time security guard.

His monthly medical bills kept climbing. Heart medication. Check-ups. A small procedure that consumed months of savings. His salary covered food and utilities – but the medical bills arrived every month like clockwork. His savings, once a modest **\$45,000**, were shrinking fast.

*"How much longer can I do this? What happens when the money runs out?"*

# A Friend Who Cared Enough to Ask

One evening, Alvin's old friend **Rajesh** visited him and found him looking exhausted after a 12-hour shift. **"You can't keep doing this, my friend,"** Rajesh said. *"I have no choice,"* Alvin replied.

Rajesh leaned forward. **"Have you heard of ALGOINSIGHTS PTE LTD?"** They develop top-of-the-class trading algorithms for financial markets like FX.

Alvin shook his head. *"I'm not a trader. I don't understand stocks or currencies."* **"You don't need to,"** Rajesh said. **"They offer something called the ABUNDANCE trading algorithm. And the best part? It's free."**

# Meeting Mr. Victor Ang — No Jargon, No Promises

At Rajesh's urging, Alvin agreed to meet the founder of **ALGOINSIGHTS PTE LTD** — a calm, straightforward man named **Mr. Victor Ang**.

## What Victor Said

"Alvin, the ABUNDANCE algorithm is designed for people like you. No experience required. It trades major currency pairs automatically, following strict rules. No fear. No greed. Just discipline."

## Alvin's Fear

"But I only have \$45,000 in savings. If I lose it..."

## Victor's Reassurance

"There's no need to put in all your savings. Start small and watch the returns. You're in total control. This is a proven system used in more than **300 live accounts**. Because it's free, you have nothing to lose by trying."

# The ABUNDANCE Algorithm — Simple by Design

## Fully Automated

The algorithm trades major currency pairs automatically. No manual intervention needed — it runs independently around the clock.

## You Stay in Control

Your trading account is in your name. You decide how much to start with, and you can scale up whenever you choose.

## Disciplined Rules

Every trade follows strict, pre-defined rules. No emotional decisions. No fear. No greed. Just consistent, disciplined execution.

## Free to Use

There is no fee for the algorithm itself. ALGOINSIGHTS PTE LTD does not charge you for access — you keep what you earn.

# Month by Month — Hope Begins to Grow

## Alvin's Account Growth

Month 1

+1.8% equity increase

Month 3

+6.8% cumulative growth

Month 6

+15.3% total return

## What Those Numbers Meant

The first month returned **1.8%** — modest, but real. By month three, the account had grown **6.8%**. Not life-changing, but encouraging.

By month six, it was up **15.3%**. Alvin started to feel something he hadn't felt in years: **hope**.

For the first time in a long while, Alvin wasn't just surviving — he was beginning to see a path forward.

# Month Eight — Everything Changed

## Medical Bills

Fully covered by monthly trading profits

## Original Capital

His \$10,000 trading capital remained untouched

## Groceries & Utilities

Consistently paid from algorithm returns

## Bank Savings

His savings were no longer being depleted

Alvin called Rajesh: *"I'm going to scale up my trading and quit the security job soon."* Rajesh laughed. **"Finally!"**

# Alvin's Life Now — Quiet, Peaceful, His Own

## A Typical Morning

Alvin wakes up at **8 a.m.** every morning, drinks his coffee slowly, and does simple exercises or tends to his garden. No night shifts. No exhaustion. No dread.

## Weekends With Family

During weekends, he visits his grandchildren — something he had missed for far too long. He sleeps through the night without worrying about medical bills or living expenses.

## The **ABUNDANCE** Is Still Running

The algorithm continues to generate returns, covering his monthly expenditures and medical expenses. His life is his own again.

# "The Algorithm Didn't Make Me Rich — It Gave Me My Life Back"

*"I had no experience. Only \$10,000 in my trading account. And I was scared at first. But ALGOINSIGHTS PTE LTD gave me a chance — not with empty promises, but with a free, honest system. The ABUNDANCE algorithm didn't make me rich. They gave me something better: my life back."*

— **Alvin**, Beneficiary of the ABUNDANCE Trading Algorithm

# Peace of Mind Is Not a Luxury — It's a Possibility

Alvin's story began with exhaustion, fear, and dwindling savings. It ended with dignity, rest, and time with family. The difference was not luck — it was a decision to try something different.

If Alvin's story resonates with you, consider reaching out to **ALGOINSIGHTS PTE LTD** and speaking with **Mr. Victor Ang**. Your peace of mind may be closer than you think.
