DESCRIPTION

This introductory level webinar is designed to provide information related to the practical intervention strategies for a child with ASD utilizing Contemporary NeuroDevelopmental Treatment (NDT) handling techniques. Participants will be assisted to improve their direct handling skills while problem solving to improve function for their pediatric client. The format will be lecture and facilitation demonstrations and discussions with opportunities to self-practice. The emphasis will be placed on practical applications that participants will be able to bring to their practice and address current trends in pediatrics.

LEARNING OBJECTIVES

At the end of this seminar the participant will be able to

1. Detail NDT facilitation techniques.
2. Discuss NDT concepts of facilitation and key points of control in order to improve functional independence.
3. Detail the importance of direct handling with problem solving throughout intervention.
4. Articulate current research and pediatric trends including adjuncts.

AGENDA

9:00-9:15 Introduction
9:15-10:00 The Role of Motor Planning for Children with ASD.

PRESENTER BIO'S

Bethanne N. Mazurczak MS, CCC-SLP, C/NDT has been a practicing clinician since 1990, specializing in the pediatric rehabilitation of infants, children and adolescents. Bethanne has a wide range of experience in working with children of all ages with neurological and developmental disabilities. She is certified in Neuro-Developmental Treatment, SOS Feeding and is currently completing the process as an NDT Candidate Instructor for the NDTA. Bethanne continues to serve the pediatric population with oral-motor/feeding and swallowing as well as communication disorders through her practice as a Speech Pathologist and is a Clinical Assistant Professor in the Department of Communication Sciences and Disorders at the University of Wisconsin – Milwaukee. She has presented at the local, national and international level on various topics.

Leslie Paparsenos, PT, MS, C/NDT is an independent, pediatric therapy provider, licensed Physiotherapist in Australia, and licensed Physical Therapist in the United State of America. She specializes in evidenced based, pediatric rehabilitation, serving babies, children and adolescents across a spectrum of neurological and developmental disabilities, and their families. Leslie is a certified Pediatric NDTA™ (USA) Instructor, certified in NeuroDevelopmental Treatment (NDTA™ (USA)), and a certified clinical instructor by the APTA (USA). She has been teaching both internationally and nationally since 2007. Leslie is committed both to supporting therapists in their clinical development and assisting families and children in their journey to independence.
