With over 12 years of experience in the paranormal field, MJ has investigated hundreds of locations worldwide. Her research has taken her from the UK, USA, and Europe to places such as South Africa and Zimbabwe, in search of all things strange.

MJ lectures at paranormal conventions around the world, teaching others the risks involved and the basics of investigating as well as a wide range of other topics, a popular Paracon lecturer. Due to her professionalism and the level of evidence she was able to document, Dickson is recognized as one of the top female investigators within the field worldwide.
