WHAT WILL YOU DISCOVER?

THE PREZ SEZ...

Welcome to summertime! Hope you are all “out and about” enjoying the RVing lifestyle, and planning to join us on upcoming rally adventures. The June SLC rally is about to start as we write this, and we are expecting a great turnout of

members, guests, and new friends attending the Region 1 Rally in Albuquerque. We got a couple of busy, exciting months ahead of us, what with “double” rallies in June & July – including regional in June and national in July – in addition to our chapter rallies.

The Chatfield Lake rally in May was small but wonderful (see article & photos)! We have had a total of **10 new members** since the first of the year. As always,

many of our new members come from YOU who spread the word about our “Spirit of Adventure” and encourage others to come to a rally and check us out. Thanks, and keep it going! Remember to direct them to our website or Facebook page for more membership information complete with application.

Seems early ... but we are already working on ideas for next year's schedule. Have a suggested location and willing to be rallymaster for it? Let me know! Always looking for someplace new and different! I'm also looking for someone to help me picking our the rally sites for 2022. As we are searching for a new Vice President/Wagonmaster. Becky – coulter06@comcast.net- 505-553-5896 or Gene- gene.dorsey@msn.com - 505-974-1845.

Becky

PS I have been reading a disturbing but interesting and occasionally funny book (from 2017) that was made into a Hulu movie starring Frances McDormand in 2020. It is called Nomadland by Jessica Brute.

It's about a new group of transient seniors that prefer to call themselves houseless rather than homeless. From the beet fields of North Dakota to the concessionaires for the Forest Service campgrounds as campground hosts. To the employees at Adventureland in Iowa, to Amazon's large CamperForce, employers have discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the financial collapse of 2008 have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads going full time due to financial hardships.

It covers the history and areas we have all been to. Such as Quartzite's townsite, Scanden Wash, High Jolly, Needles, the Kaibab and Prescott National Forests. It explains the future for seniors in the past was living with a son or daughter or going to the poor house / hospital. Actual retirement funds have only been around since 1938. It also explains how Social Security was meant to be a 3 legged stool along with personal retirement and work retirement.

It seems companies are not wanting to provide retirement because it is too costly and people are expected to go it alone and fund their own retirements. The stool only has one leg (that being SS) for many people The book opened my eyes to the needy around us and how they got there. Many did everything they could to prevent it. If you have a steady retirement other than social security and enough money to travel for fun you are blessed.

Chatfield Lake State Park

The Colorado spring time weather was the biggest challenge for this rally. During the meet and greet on day 1 there was a torrential downpour. Glasmann's were able

to squeeze 10 people inside their 30 foot motorhome which included Rallymasters Jim and Joan Glasmann, Bill and Bev Eckel, CE Members Buck and Lynn Buckingham, Kathy and Pat Symalla, newcomers Will and Judy Perkins. Needless to say, no evening campfire.

Tuesday dawned a cold and windy day. Never the less our group headed to Golden Gate State Park via the tunnel route on Highway 6. We explored the visitor center and had a picnic lunch at an overlook. No hiking, trails were a bit muddy. During happy hour Bill tried his best to have a good campfire however everything was still damp.

Wednesday was our best weather day with clear blue sunny skies. We drove to the light rail station and boarded the train to downtown Denver. We arrived at 16th and California Streets and boarded the mall shuttle to the Historic Union Station. From Union Station we walked to the historic Oxford Hotel where we toured and learned more about early history of that part of town. From the Oxford we caught the mall shuttle and had lunch at Maggiano's Italian Restaurant. Part two of our tour got us back on the mall shuttle which took us to the opposite end the mall to walk around Civic Center Park and the Greek Amphitheater.

Thursday was the free day. Glasmann's and Eckel's took their rally dogs Hunter and Happy to the Chatfield Dog Park where they met several different dog breeds. Hunter had to go swimming and Happy would herd him back to shore. We were surprised when other CE members (Gene and Rosie Dorsey and Chuck Akerman and Mary Miller) dropped in to say hello at happy hour. Everyone regrouped for the evening potluck.

Friday the wind returned with partly cloudy skies and a bit cool. We headed to Red Rocks Park and explored the Trading Post and took a few pictures. From there we headed to Lookout Mountain. Everyone enjoyed the overlook of Denver and surrounding communities. We had a picnic lunch, walked to Buffalo Bill's Grave, and toured the museum. All the guys rode the bronco at the museum. We drove down the steep front side of Lookout Mountain and into the town of Golden and on to the Colorado Railroad Museum. At the museum we boarded a train which took us around the grounds and the conductor gave an

overview of all the train equipment. Downstairs in the main building was a wonderful and very large model train exhibit. Back at camp we had a breezy happy hour. Saturday rallymasters provided breakfast to help send everyone on their way.

At 10,152 feet above sea level, Leadville is the highest incorporated city in North America. Colorado's two tallest fourteeners — mountains higher than 14,000 feet — tower above the area, including 14,433-foot Mt. Elbert and 14,421-foot Mt. Massive. Twin Lakes, located adjacent to the state's two largest glacial lakes in the shadow of Mt. Elbert, provides gorgeous views of the neighboring summits and is a popular spot for photographers. A drive on the 'Top of the Rockies' Scenic and Historic Byway is an excellent way to capture Lake County's best views. The 82-mile route traverses the 12,095-foot Independence Pass, affording sights of sky-scraping peaks, sprawling valleys and reflective lakes.

Located at a relatively higher altitude than its neighboring towns, Del Norte boasts of a balanced landscape that allows tourists to enjoy beginner to

Palo Duro Canyon (from the Spanish meaning "hard wood" or, more exactly, "hard stick") has been named "The Grand Canyon of Texas" both for its size and for its dramatic geological features, including the multicolored layers of rock and steep mesa walls similar to those in the Grand Canyon. Lubbock is known as the birthplace of rock 'n' roll legend Buddy Holly. The Buddy Holly Center celebrates his life and music with artifacts and mementos. Nearby is the West Texas Walk of Fame, with a statue of Holly and plaques honoring musicians from the region. The Museum of Texas Tech University houses millions of objects of art, history and paleontology, plus the Moody Planetarium.
