PS I wish this was still true, while traveling in Alabama with Diana McVey and Bob Skaug we encountered some baseball size hail which did lots of damage to our RV's and tow cars, needless to say we are home due to trip interruptus.

Several of our members are HAM operators. When the question came up about using channel 20 on our family radios we found that we were not in compliance with the FCC operating in those higher channels. Joseph Thomas and George Raney had some fun at the Big Bend Rally and they did some HAMing around. Joseph thought some of you might be interested in getting their HAM licenses and wanted to provide information on how to get your license should you desire.

Model GXT1000/1050 Series

IMPORTANT NOTICE, FCC LICENSE REQUIRED FOR GMRS OPERATION

The GXT1000/1050 Series operates on GMRS (General Mobile Radio Service) frequencies which require an FCC (Federal Communications Commission) license. You must be licensed prior to operating on channels 1 - 7 or 15 - 42, which comprise the GMRS channels of the GXT1000/1050 Series. **Serious penalties could result for unlicensed use of GMRS channels, in violation of FCC rules, as stipulated in the Communications Act's Sections 501 and 502 (amended).**

You will be issued a call sign by the FCC which should be used for station identification when operating the radio on GMRS channels. You should also cooperate by engaging in permissible transmissions only, avoiding channel interference with other GMRS users, and being prudent with the length of their transmission time.

To obtain a license or ask questions about the license application, contact the FCC at 1-888-CALL FCC or go to the FCC's website: <http://www.fcc.gov> and request form 605.

If anyone is interested in going to Gillette, Wyoming for the FMCA Convention? There will be a Chapter Fair on June 6. If you will be there please contact Gene Dorsey (505) 974-1845

Winslow, AZ Rally Report April 20-26

The Winslow rally was changed unanimously to the windy rally! We had winds up to 50 mph the entire trip, but we managed to get out and have a great time. We had 8 rigs in attendance and signed up three new members! welcome to: Wyatt and Dawn Palmer, Ed and Lynn Kausche and Corky and Cheryl Gainford. In attendance were: Smiths, Browns, Meiers, Miller's, Bill Eckel and of course our 3 new members.

We went to Meteor Crater and it was absolutely amazing. We visited Walnut Canyon where we hiked down and up about 736 stairs viewing the native community with old Pueblo dwellings. We also took a tour of the La Posada hotel and gardens, where the history was abundant, and the tour was lead by one of the Harvey Girls.

We toured the old trail museum with the curator navigating our way. Visited standing on the corner and had a great lunch at Realic Road brewery, where we had our own room and a delicious meal. We started our first morning with a continental breakfast. We had happy hour, games, and a potluck. On Saturday we had a brat BBQ and Sunday had a hamburger BBQ.

One evening we watched the movie RV with Robin Williams which was still hilarious. Took a tour of Homolovi state park and Little Painted Desert.

Day 1, Monday, Jun 7: Arrive/check-in

Day 2, Tuesday, Jun 8: Exploring Park City We will visit the Utah Olympic Park in the morning. No charge to visit two museums, watch athletes train or explore the venue. We will then go into Park City where we will eat lunch and explore on our own. The Park City Museum is very interesting and covers the mining industry and skiing history of Park City. You may want to take a scenic gondola ride or chairlift ride. There is a hop on, hop off trolley that runs through Park City and, of course, there is plenty of shopping. It is also a great leisurely stroll, if the weather cooperates.

Day 3, Wednesday, Jun 9: The Great Salt Lake and Antelope Island State Park We will drive across the Great Salt Lake on the 7-mile causeway. First, we will spend time in the Visitor Center. Then we will drive south on the island to the historic Fielding Garr Ranch, hoping to see the herds of buffalo and other wildlife along the way. We can tour the ranch house and out buildings. We will take a sack lunch.

Day 4, Thursday, Jun 10: Downtown Salt Lake City We will visit Temple Square, the No. 1 tourist attraction in Utah. We will enjoy the beautiful gardens. Three buildings on the square were built by the pioneers: the six-spired granite Salt Lake Temple; the acoustically perfect domed Tabernacle, original home of the Tabernacle Choir and the famed organ; and the Assembly Hall with its white spires and stained-glass windows. There are museums and a Visitor's Center on the square. At 12:00 we will make our way to the Tabernacle to hear a free organ concert. We will eat lunch near the square (restaurant to be determined). In the afternoon, we will visit the Family Search Center where you can explore your own family history and records.

Day 5, Friday, Jun 11: Union Station and Notorious 25th Street in Ogden We will visit the historic Union Station and learn about its history as we follow along with a 30-minute podcast. We can spend additional time in Union Station viewing the Railroad Museum, the John M Browning Firearms Museum, or the Classic Car Museum, depending on your interests. We will eat lunch on historic 25th Street and after lunch we will walk 2 blocks up and back 25th Street as we listen to another podcast and learn the history of why it is called "Notorious 25th Street". We will return to our RV Park by driving east through Ogden Canyon (a scenic byway), over Trapper's Loop and Snow Basin Ski area (amazing views and vistas) and west through Weber Canyon back to our RV Park.

Day 6, Saturday, Jun 12, Free day On your own to explore what interests you. So many possibilities and we will have a list for you. Perhaps, some may want to take the drive to the Golden Spike National Historical Park, or visit This is the Place Heritage Park, or visit Trolley Square or more museums in SLC.

Day 7, Sunday, Jun 13, Departure Day If you paid for 6 nights, you got a 7th night free and will then have the option to spend this day in the area as well, leaving on the morning of June 13th.

*Del Norte is a gem in the San Luis Valley,
And there's still space for you to join in our rally.*

*We are out in the Woods, near the River too,
Where scenery abounds and there's much to do.*

*This valley is flat - covered in crops as you'll see,
But our hike in the mountains will reveal a huge tree.*

*The locals tell us - there are "Ghosts High in the Sky",
Let's find out how? Let's find out why?*

*We should see wild game, and then if we're lucky,
We might see some egrets, a crane, or a ducky.*

*Of course, we love history and a museum is a must,
We'll discover, then honor those who for us, gave so much.*

*Now a word to our Cuatro Estados family, so wise,
What would our rally be without some sort of surprise?*

We'll be -

At 10,152 feet above sea level, Leadville is the highest incorporated city in North America. Colorado's two tallest fourteeners — mountains higher than 14,000 feet — tower above the area, including 14,433-foot Mt. Elbert and 14,421-foot Mt. Massive. Twin Lakes, located adjacent to the state's two largest glacial lakes in the shadow of Mt. Elbert, provides gorgeous views of the neighboring summits and is a popular spot for photographers. A drive on the 'Top of the Rockies' Scenic and Historic Byway is an excellent way to capture Lake County's best views. The 82-mile route traverses the 12,095-foot Independence Pass, affording sights of sky-scraping peaks, sprawling valleys and reflective lakes.

Located at a relatively higher altitude than its neighboring towns, Del Norte boasts of a balanced landscape that allows tourists to enjoy beginner to advanced hiking trails. Since the town is also rich when it comes to wooded and water resources, camping, fishing, and rock climbing became one of the top activities in the area.

Palo Duro Canyon (from the Spanish meaning "hard wood" or, more exactly, "hard stick") has been named "The Grand Canyon of Texas" both for its size and for its dramatic geological features, including the multicolored layers of rock and steep mesa walls similar to those in the Grand Canyon. Lubbock is known as the birthplace of rock 'n' roll legend Buddy Holly. The Buddy Holly Center celebrates his life and music with artifacts and mementos. Nearby is the West Texas Walk of Fame, with a statue of Holly and plaques honoring musicians from the region. The Museum of Texas Tech University houses millions of objects of art, history and paleontology, plus the Moody Planetarium.

It was the home and studio of Georgia O'Keeffe, as well as the subject of many of her paintings. Ghost Ranch is also known for a remarkable concentration of fossils, most notably that of the theropod dinosaur Coelophysis, of which it has been estimated that nearly a thousand individuals have been preserved in a quarry at Ghost Ranch.
