

NO ZANY TRADEOFFS

Zaniez is committed to exploring every option for learning to unearth the brilliance in Spectrum kiddos. We believe that this type of learning environment and philosophy can foster many exceptional and inspiring leaders in society through Zaniez similar to the famous humans on the Spectrum like Wolfgang Amadeus Mozart, Steve Jobs, Michelangelo, Elon Musk, Thomas Jefferson, Dan Akroyd, Andy Warhol, Nikola Tesla, Sir Isaac Newton, Satoshi Tajiri, Temple Grandin, Albert Einstein, Bobby Fischer, and so many more.

Our educational career pathing takes into account each student's inner brilliance and exceptional aptitude in various areas from day one to foster learning through individual interests. For example, if a student leans towards technology and music then the learning will be funneled through one of those channels in activity form to encourage learning and growth in an area already approved and adored by the student.

Every student possesses greatness, it's our job to find it!
