Decorate the Pencil Case

Decorate the Pencil Case

Instructions

The above resources can be laminated for repeated use. I have included 2 pencil cases with colour round the edges only as an option if people want to reduce the amount of coloured ink used. The activity could be used in two ways:

- 1) As a simple pencil case decorating activity where the child chooses the different pictures to decorate their pencil case.
- 2) As a listening activity where the child is given different instructions to follow to decorate the pencil case. See examples below for instructions at different levels of understanding.

1 key word instructions

Materials needed: Several different stickers to choose from (e.g. heart, star, butterfly), one pencil case.

Example instructions:

Get a heart.

Get a spider.

Get something red.

The child can then stick or velcro the sticker on the pencil case.

2 key word instructions

Materials needed: Several of each sticker available (e.g. 3 hearts, 3 stars, 3 butterflies), one pencil case.

Example instructions:

Get two hearts.

Get a heart and a star.

The child can then stick or velcro the stickers on the pencil case.

3 key word instructions

Materials needed: Several of each sticker available (e.g. 3 spiders, 3 dinosaurs, 3 faces), and both pencil cases.

Example instructions:

Put two spiders on the purple pencil case.

Put three dinosaurs on the blue pencil case.
