

# MAMA TREE

Greetings friends,

The recent storm that came through didn't bring as much rain as anticipated (0.27"), but it did bring a slew of new baby goats that we have warmly welcomed to our herd. Our animal team has been working hard tending to them and their mamas. We're anticipating your excitement to visit and have scheduled many opportunities for Baby Goat Meet and Greet and Goat Yoga once they get a little stronger on their legs (more information below!).

Back by popular demand, we added two workshops focused on animal care, led by our Animal Systems Lead, Logan. If you've ever dreamed of having your own backyard chickens or goats, these workshops will leave you excited and confident.

### **Regenerative Farm Tour**

Saturday, October 4th 2025 | 9:15 - 11:30 AM

[Join our Land Stewardship team for a closer look](#) at our approach to regenerating the health of the land and growing nutrient dense food. Come see how we're increasing biodiversity, building soil, supporting the local water cycle, and improving climate stability across 60 acres. Hear about the process of transitioning a conventional citrus orchard into young, agroforestry trial plots.

This walking tour will showcase our orchards, trial plots, earthworks, plant nursery, and regenerative grazing (yes, there will be goats), as we discuss the principles behind our management approach. Afterward, our homemade products will be available for sampling and purchase.

This is currently the only scheduled farm tour this fall so please share with friends!

### **Backyard Chicken Care Workshop**

Saturday, October 11th

[This hands-on workshop](#) will help you start or improve your ability to care for chickens, from essential care techniques to integrated permaculture systems that will make the process easier and more rewarding.

By the end of this workshop, participants will be able to:

- **Implement holistic health practices** including nutrition planning, parasite management, and preventative care

- **Perform essential hands-on techniques** such as health assessments, safe and pain free wing clipping, and proper handling
- **Select and manage appropriate breeds** based on your specific needs and space limitations
- **Grow and maintain a harmonious flock** using natural methods and sustainable practices

**RSVP for our Chicken Care Workshop**

### **Baby Goat Yoga with Zoya**

Sunday 9 AM - 10:30 AM in October

Starting [Sunday, October 12th](#), we will be hosting a baby goat yoga experience every Sunday through October. Join us for customized yoga flows designed to maximize friendly and curious goat interactions all while helping build body awareness, core strength, and general mobility. Don't be surprised if a baby goat hops on your back or curls up in your lap.

Space is limited, sign up for one of the sessions via our [calendar of events](#).

### **Baby Goat Petting Zoos**

Wednesdays & Saturdays in October & November

Starting Wednesday, October 15th, we'll open our gates for [family-friendly baby goat petting zoos](#), both after school on Wednesdays as well as Saturday mornings. Come meet the newest members of our herd and cuddle them to your heart's content! We're offering two time slots each day: 3pm & 4pm on Wednesdays and 9am & 10am on Saturdays. Each session lasts 45 minutes and our farm shop will be open at the end for exclusive items such farm fresh eggs.

Check out our [calendar of events](#) to sign up for a date & time slot.

### **Forest Gardening Weekend**

Saturday & Sunday, October 25th & 26th, 2025

This is your opportunity to get hands-on, planting trees and native plants with us. [Join us](#) for a full weekend or just one day as we bring you behind-the-scenes in expanding our agroforestry systems. After an introduction to agroforestry principles and how they guide our process, we'll be hands-on for the rest of the weekend. Affordable and sliding scale.

**Register to Plant Trees With Us!**

## **Goat Care Workshop**

Saturday, November 8th

[Curious about keeping goats?](#) Whether you're a beginner or looking to integrate goats into your permaculture system, this full-day workshop will give you the knowledge and confidence to raise happy, healthy goats. Learn about rotational grazing, natural health care, enclosure solutions, and how goats can regenerate your land. Get hands-on experience with hoof trimming, feeding strategies, comprehensive health screenings and even milking. Come prepared to learn, laugh, and leave with practical skills for holistic goat keeping. Learn directly from our experienced farm team in a supportive, hands-on environment.
