THC Free and Co2 Extracted for a clean potent Hemp oil!

Our hemp oil is a 'Full-spectrum' oil which refers to the process of how the pure oil is CO2 extracted from hemp which maintains the same cannabinoids and compounds found in the original hemp plant. It's a combination of CBD rich Organic Hemp Tincture and Organic Hemp Oil which is GMO Free, Solvent Free, and Alcohol free. Unlike isolated or synthetic cannabinoids, full-spectrum hemp oil contains an array of cannabinoids, as well as many essential vitamins and minerals, fatty acids, protein, chlorophyll, fiber, flavonoids, and terpenes.

Research has shown that a full spectrum Hemp oil is the best possible extraction method to provide the best product.

Our hemp is Industrial Hemp Certified, 100% organically grown and sourced from nutrient abundant soils in the USA to ensure it's a medicinally rich CBD product. We use a solvent free CO2 extraction process to produce the highest grade CBD that has no harsh chemicals, no pesticides and no metals and is non-GMO. Our farms are fully compliant with the State Department of Agriculture regulations.
