## **READING IN THE NICU**

Reading to your baby is extremely beneficial for their cognitive development. The **MLG Literacy Corner** provides partnering hospitals with bookshelves full of children's books from which parents can choose and read to their baby on a daily basis, and jump start their home library!

### **Some Benefits from Reading in the NICU/NICCU**

Decreases stress levels for babies and parents.

Increases bonding for babies and parents.

Decreases postpartum depression.

Increases voice recognition.
