Fork Frame shown in  
3000 lb capacity;  
2300 lb also available

Class II Receiver  
built into 3000 lb  
fork frames

Lubricious Coating  
eases adjustment of  
attachments

## Cascade Fork Tines

The lightest fork tines available today!  
Hammer-forged ITA Class II fixed fork tines,  
full and standard taper styles

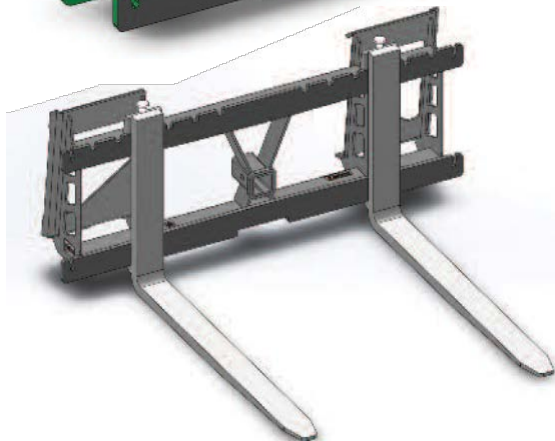

Available in 36", 42" or 48" lengths

## 4" Wide Fork Tines

Best for compact tractors

## 3" Standard Fork Tines

Best for sub-compact tractors

**NOTE:**

Skid Steer Pallet Fork Frame fits Universal Quick Attach or Skid Steer Quick Attach loader meeting the SAE J2513 Standard.

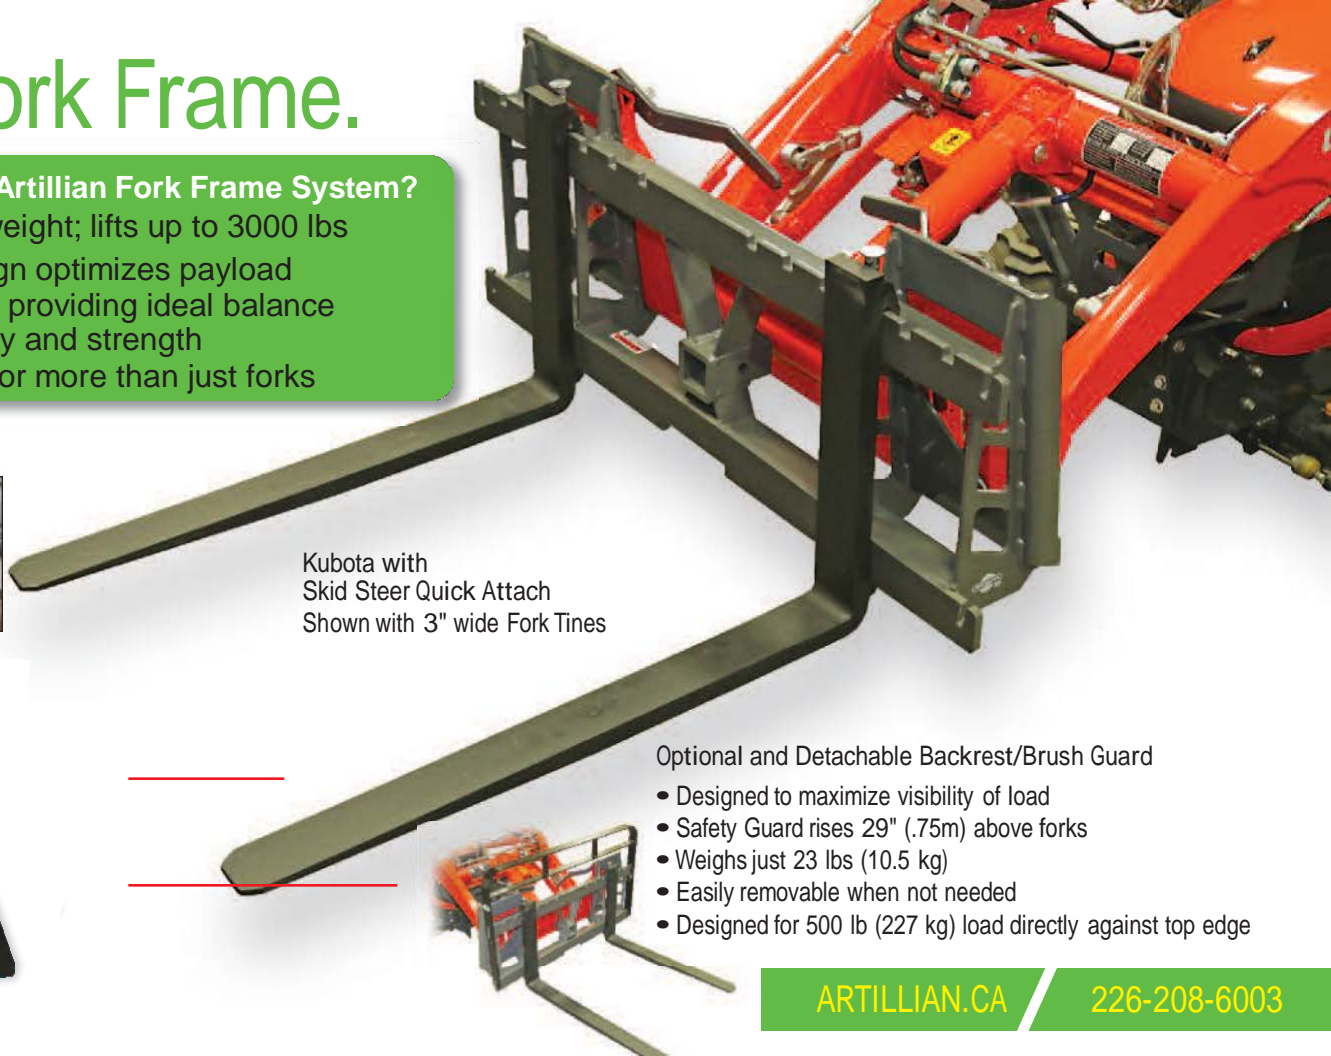

# Pallet Fork Frame.

## Why Choose the Artillian Fork Frame System?

- Strong yet lightweight; lifts up to 3000 lbs
- Proprietary design optimizes payload lifting capacity - providing ideal balance between capacity and strength
- Versatile - use for more than just forks

Kubota with  
Skid Steer Quick Attach  
Shown with 3" wide Fork Tines

## Optional and Detachable Backrest/Brush Guard

- Designed to maximize visibility of load
- Safety Guard rises 29" (.75m) above forks
- Weighs just 23 lbs (10.5 kg)
- Easily removable when not needed
- Designed for 500 lb (227 kg) load directly against top edge

# You design it.

Customize your Artillian Fork Frame with any combination of Artillian Grapples and Rakes, all compatible with John Deere and Skid Steer Quick Attach loaders (Kubota, Yanmar, Bobcat etc.)

- Easily removes brush, debris, and other materials, leaving surface undisturbed
- Unique sectional Grapple and Rake design allows custom configuration for different tasks

# Configure Your Grapple and

The Artillian Grapple System can be used for work above or below grade. Tackle brush, roots, rocks, land-grading and even firewood processing. Use Grapple Sections for clamping onto objects. Use Rake Sections for widening the Grapple bed or as a standalone rock bucket or rake. You can quickly and easily add and remove Grapple and Rake Sections right on your worksite to suit the tasks at hand.

# Choosing is as easy as 1, 2, 3.

## Start with Fork Frame (two options)

John Deere  
Fork Frame 2300 or 3000 lb  
capacity

Skid Steer  
Universal Quick Attach  
Fork Frame 3000 lb capacity

Rake - Grapple - Rake

Skid Steer Quick Attach Fork Frame

NOTE:  
Skid Steer Pallet Fork Frame fits Universal Quick Attach or  
Skid Steer Quick Attach loader meeting the SAE J2513 Standard.

# Rake Combination

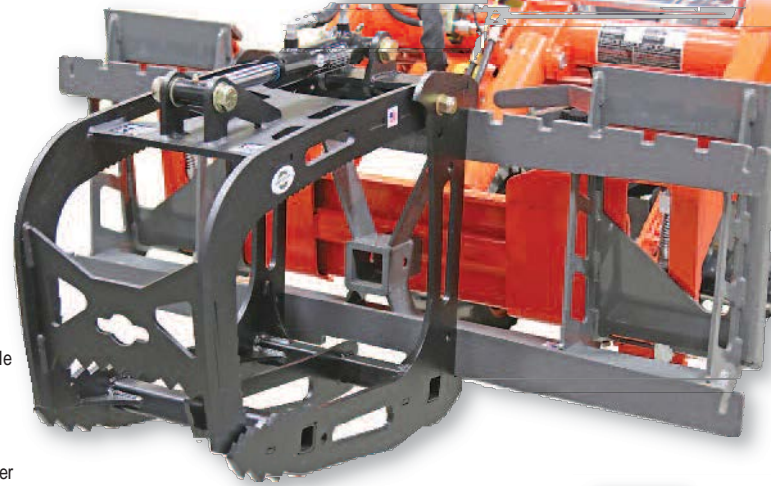

## Rake Section

Rakes widen the bed of the Grapple or can be used alone as a ground rake, digging tool, rock bucket, brush hauler, excavator/tiller, etc.

## Grapple Section

- Each Grapple Section provides up to 1020 lbs of clamping force at the tips. Using multiple Grapples doubles or triples these capabilities
- Grapple hinges have two settings. One for the widest opening and another for the highest clamping power, depending on the type of work being done
- Permanently attached fast-action hardware secures Grapple and Rake sections to the pallet fork frame in seconds
- Made primarily of 3/8" thick ultra-high-strength and wear-resistant steel for many years of durable life
- Optional Fangs provide even more versatility and holding power
- Includes everything needed to go to work right out of the box

# Add Your Accessory Attachments.

## Front Hoe Bucket

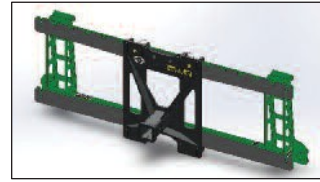

- Does many jobs of rear backhoe for about 1/30 the cost
- Mounts in four positions (center, offset left, offset right, upside down)
- Use for transplanting, trenching, etc.

## Bolt-on End Plates and Debris Guards for the Artillian Grapple and Rakes

- Improves containment for loose materials, e.g. rocks, leaves, firewood
- Reduces project clean-up time

NOTE: Rock Bucket Sides and the Debris Guards are best used in conjunction, but sold separately

## Class II Receiver Attachment

Attach trailer ball mounts, bale spears, shackles, winches, and many other tools compatible with 2" receiver hitch

NOTE: Necessary for 2300 lb Fork Frame

## 3pt Hitch Attachment

- Connects 3pt hitch attachments to your front end loader
- Landscape with your rakes, blades, cultivators, scarifiers, booms, etc.

## John Deere Turf Stabilizer Feet

Far less turf damage to lawn than OEM backhoe feet

## Bolt-on Flangs

Prevents rotation of objects and secures small objects in the Artillian Grapple

## Hydraulic Diverter Kits

Add a third hydraulic circuit to your loader for powering our Grapples, Plow Adapters and other attachments

## Fork & Bucket Cart and Pallet Fork Caster Cart

Great way to store and easily move forks around your shop

## John Deere Ballast Box Trolley

For safe mobility around your shop

## Horse Blinders

- Protect eyes against blinding glare
- Designed to resist damage from bushes, branches, etc.
- Install in minutes

## Extension Wings for the John Deere 54 Blade

Widens the John Deere 54 Blade to 66" covering the tractor footprint

John Deere
