

The background of the image is a collage of architectural drawings. In the top left, there are three rolled-up blueprints showing various floor plans with dimensions and labels like 'B', 'C', and '13'. In the top right, a detailed floor plan is visible with room areas such as 67.1m², 10.9m², 6.0m², 3.8m², 5.3m², 19.8m², and 13.3m². In the bottom left, there is a perspective line drawing of a modern building with multiple levels and large windows. In the bottom right, another floor plan is shown with a person silhouette in a room, and various dimensions and labels like 'A', 'B', 'C', and 'D'.

ABOUT

TaxDep.AI is an Australian white-label SaaS platform **revolutionising Property Intelligence reporting.**

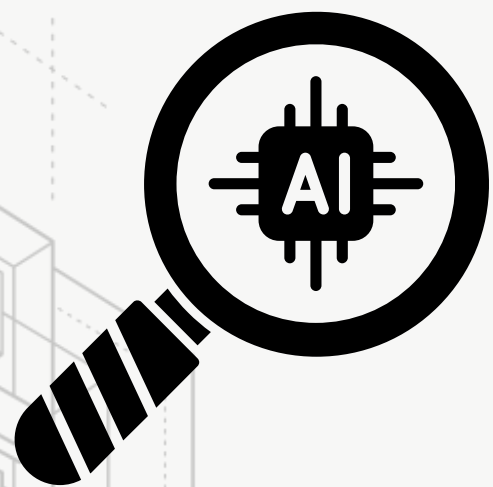

THE TEAM

Developed with leading **Quantity Surveyors, software engineers, property developers and systems intelligence experts**, TaxDep.AI uses

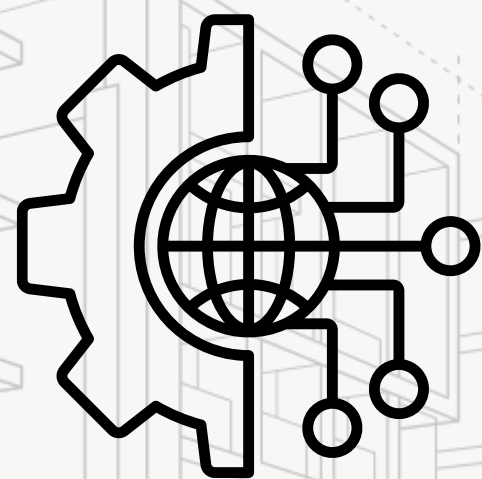

- AI-driven photo asset detection
- property data integration
- ATO-compliant calculations
- Full white-label platform

■ **VISION**

Our vision is to redefine property intelligence through AI-powered reporting that delivers instant, accurate insights into depreciation, insurance, valuations, assets and compliance.

■ **MISSION**

Our mission is to harness cutting-edge AI automation and modular system design to simplify complex property processes.

GOAL

To be Australia's leading **white-label** SaaS platform for rural, residential and commercial property reporting—delivering faster, more cost-effective and scalable solutions through next-gen automation for quantity surveyors, accountants, valuers, developers, insurers, brokers and astute property investors.

BRAND PURPOSE

To simplify and scale property and asset intelligence using automation.

BRAND POSITIONING

Delivering efficient, compliant and scalable solutions for property professionals going beyond static reports to unlock deeper asset insights across the property lifecycle.

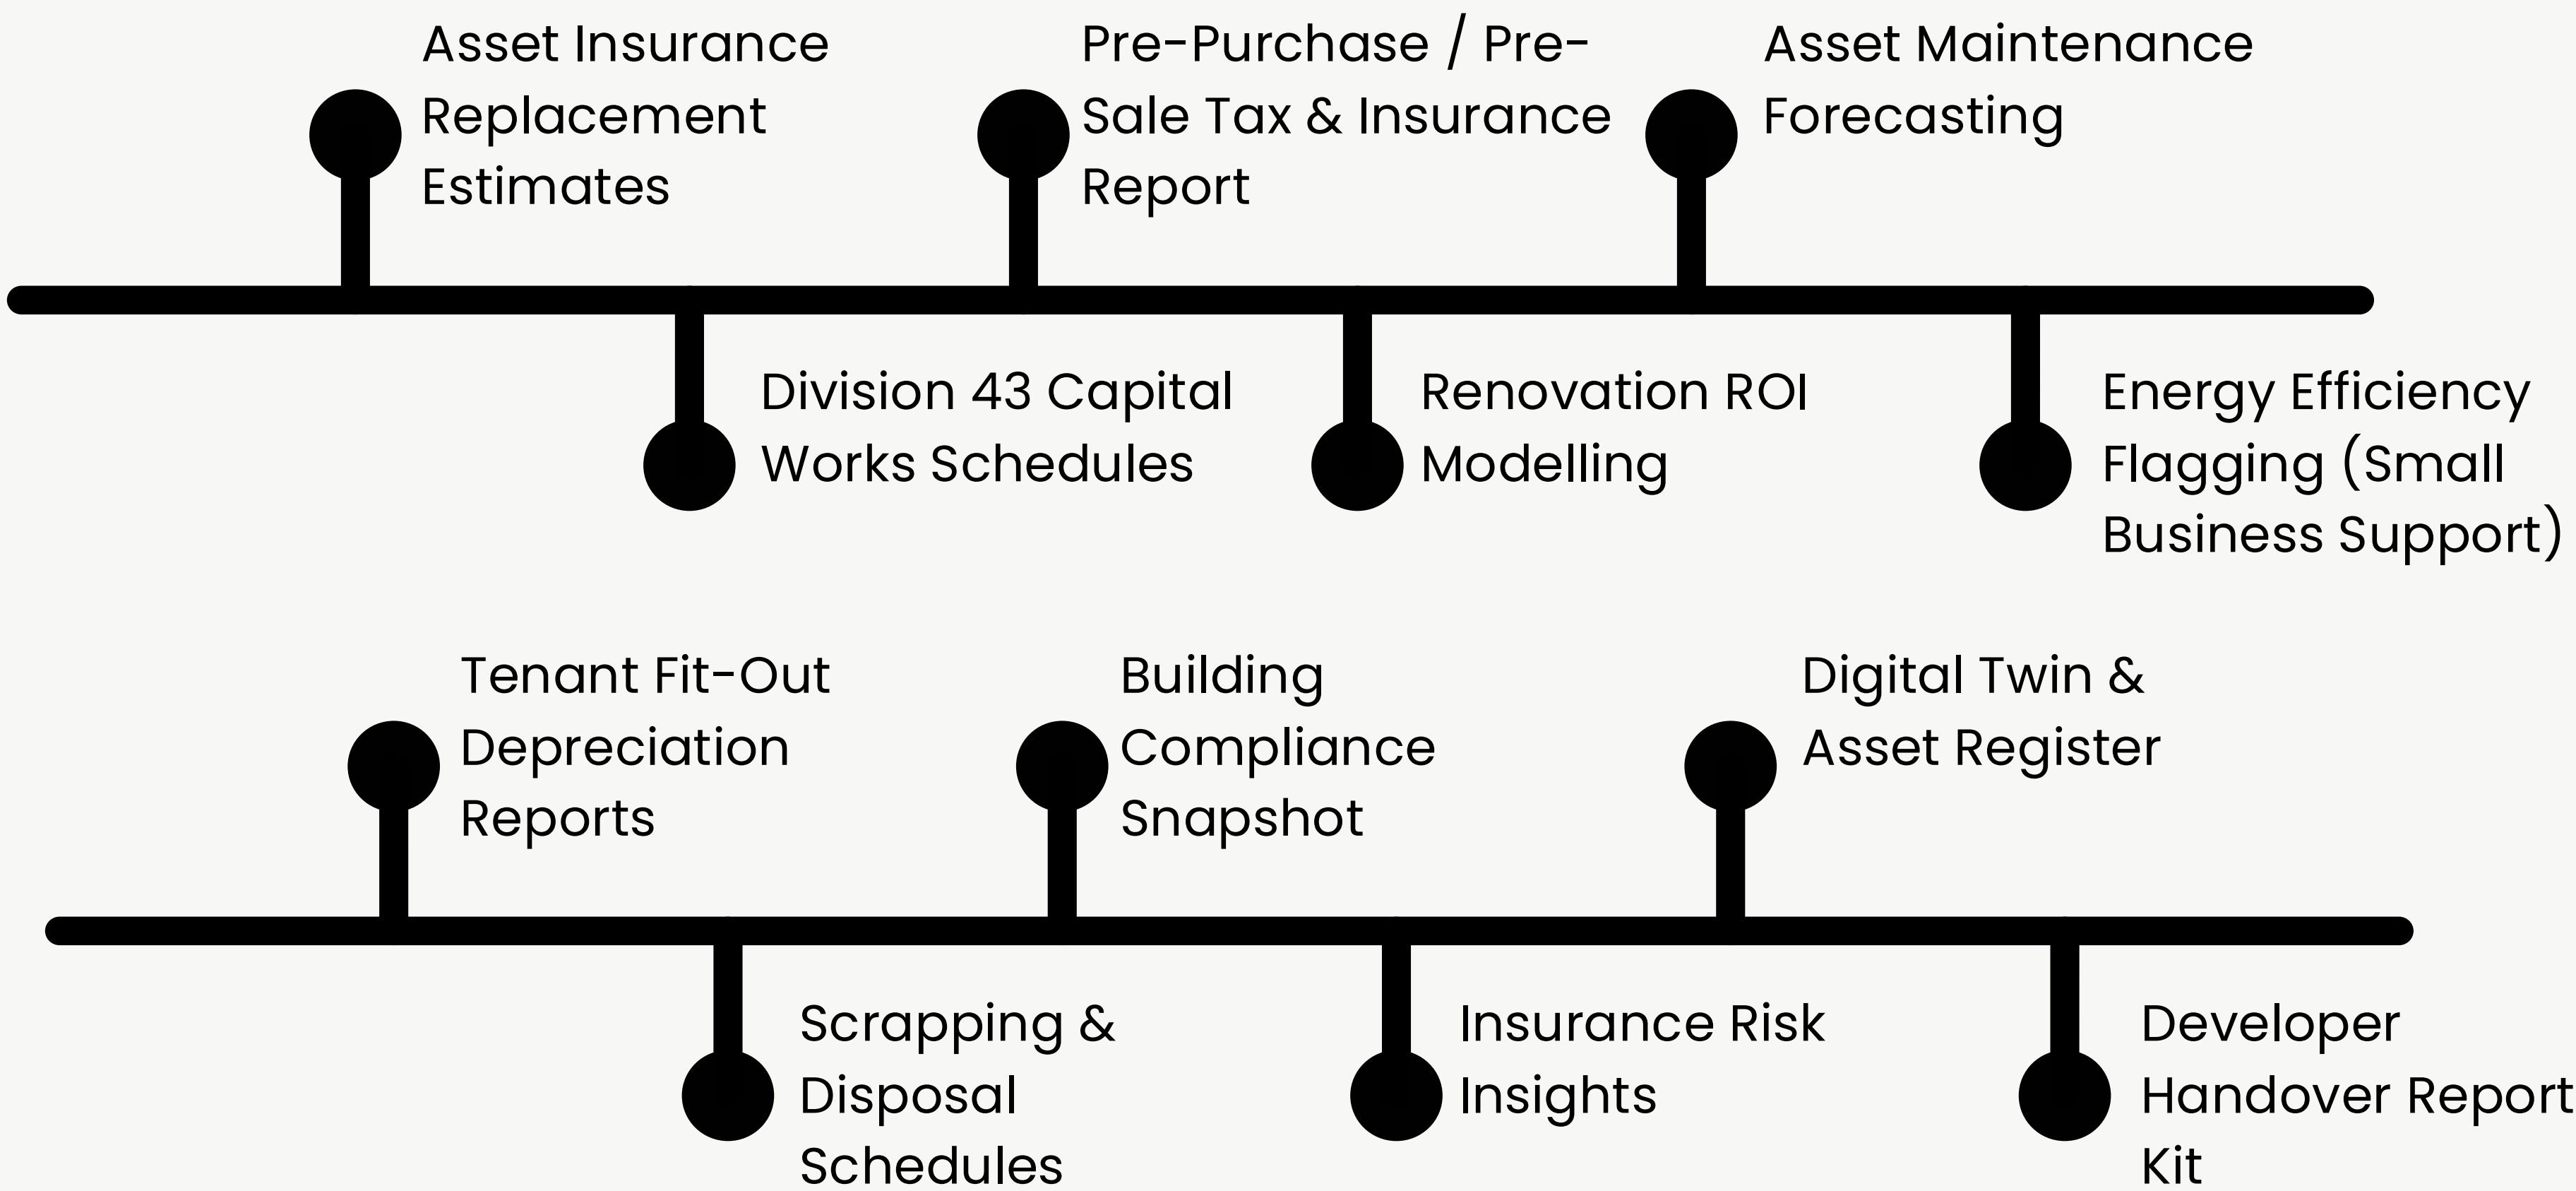

OPPORTUNITY

A SIGNIFICANT OPPORTUNITY TO EXPAND INTO A BROADER PROPERTY DATA INTELLIGENCE PLATFORM BY LEVERAGING THE SAME UNDERLYING DATA, AI TOOLS AND PHOTO PROCESSING CAPABILITIES EXISTS.

THE FOLLOWING PLANNED UPGRADES REFLECT AUSTRALIAN TAX COMPLIANCE, INSURANCE AND PROPERTY STANDARDS. PARTICULARLY WITH ALIGNMENT TO ATO GUIDELINES, DIVISION 40 & 43 AND LOCAL BUILDING CODES.
