X-Ray Protective Aprons for the Operator  
**SKIRT & VEST MODELS**

**Additional protections and Accessories**

***Discover our complete range of lightweight clothing with a comfortable design for radiation protection for all types of procedures.***

*Three different material compositions to meet every need:*

*Full Lead Material  
Lightweight Lead Composite Material  
Innovative Lead Free bi-layer Technology*

*Three different levels of protection that can be combined to achieve adequate protection:*

*0.25 mm Pb eq.  
0.35 mm Pb eq.  
0.50 mm Pb eq.*

NEW X-RAY PROTECTION PRODUCTS

PA PB

PA/PB material adopts domestic exclusive research and development technology formula, domestic first-class advanced equipment, self-produced lead rubber, single-layer lead equivalent 0.5mmPb, thickness 1.43mm, soft texture, uniform distribution of lead elements, mainly for patients and industrial flaw detection personnel to provide radiation protection.

Based on customer requirements to provide more customized service products.
