Silicone Laryngeal Mask Airway

1. Made of imported medical grade silicone, high quality.
2. Silicone cuff is made by one time, provides good and soft sealing.
3. Cuff color can be customized: flesh, blue and transparent 3 colors available.
4. Single-use and reusable 2 types available.
5. MRI compatible type is available for single-use silicone Laryngeal Mask Airway.
6. Reusable type is autoclave sterilization only, can be reused up to 40 times.

Reinforced Silicone Laryngeal Mask Airway

1. Made of imported medical grade silicone, high quality.
2. Silicone cuff is made by one time, provides good and soft sealing.
3. Flexible tube with spiral reinforced wire, reducing the risk of kinking.
4. Single-use and reusable 2 types available.
5. Reusable type is autoclave sterilization only, can be reused up to 40 times.

Silicone Reinforced Endotracheal Tube (Cuffed)

1. Both of the tube and cuff are made of medical grade silicone, better biocompatibility.
2. High volume, low pressure silicone cuff maintains good sealing.
3. Silicone tube with spiral reinforced wire reducing risk of kinking.
4. 100% medical grade silicone and soft tip, reduce the damage to the tracheal wall and airway mucosa.
5. Single-use and reusable 2 types available, both two types with stylet equipped.
6. Reusable type is autoclave sterilization only, can be reused up to 10 times.

Endobronchial Tube

1. Made of medical grade PVC, clear and smooth.
2. Left-sided and Right-sided available.
3. Equipped with 1 stylet, 1 switch connector and 2 suction catheters.
4. Easily operate one-lung ventilation by switch connector.
5. Used for one-lung ventilation, in the OPS of bronchus, thoracic surgery etc.

Breathing Circuit

Disposable Breathing Circuit-Corrugated

Item No.	Size	Hose length	Specification
BC1-L	Adult	1.2M / 1.6M / 1.8M	1. Standard connectors (15mm, 22mm). 2. EVA material, Kinking resistant. 3. Normally 1.6m / 1.8m, length can be customized.
BC1-M	Pediatric	1.2M / 1.6M / 1.8M	

Disposable Breathing Circuit-Expandable

Item No.	Size	Hose length	Specification
BC2-L	Adult	1.2M / 1.6M / 1.8M	1. Standard connectors (15mm, 22mm). 2. EVA material, hoses are expandable, easy for transportation and use. 3. Normally 1.6m / 1.8m, length can be customized.
BC2-M	Pediatric	1.2M / 1.6M / 1.8M	

Disposable Breathing Circuit-Smoothbore

Item No.	Size	Hose length	Specification
BC3-L	Adult	1.6M / 1.8M	1. Standard connectors (15mm, 22mm). 2. PVC material, smoothbore, kinking resistant, very high quality.
BC3-M	Pediatric	1.6M / 1.8M	

Disposable Breathing Circuit-Coaxial

Item No.	Size	Hose length	Specification
BC4-L	Adult	1.6M / 1.8M	1. Standard connectors (15mm, 22mm). 2. EVA material, Inside gas sampling line ends with swivel port. 3. Hose color: blue and purple for your choice.

Disposable Breathing Circuit—Midsplit Tube

Item No.	Size	Hose length	Specification
BC5-L	Free	1.6M / 1.8M	1. Standard connectors (15mm, 22mm). 2. EVA material, single tube double chambers. 3. Normally 1.6M/1.8M, length can be customized.

✚ Silicone Reusable Anesthesia Breathing Circuit

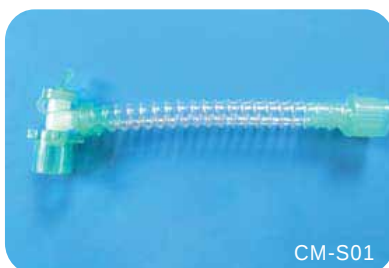

1. Patent technology of integrated molding, high strength, not prone to falling off and being separated, good flexibility.
2. It can endure high temperature and high pressure disinfection, reusable.
3. Joints are made with injection molding with no gas leakage.
4. Mainly used for operation patients in anesthesia and oxygen; patients after recovery.
5. Support and care for patient with severe postoperative respiratory.
6. Free options among water trap, Y type joint, L-shaped connector, masks, breathing bags, etc.

Specification (ID)	Note
22 mm	Adult
15mm	Pediatric
10mm	Neonatal

Catheter Mount

1. Corrugated, Expandable and Smoothbore types are available for the hose.
2. Standard connectors (15F/22M, 22F), for adult and pediatric.

Item No.	Type	Size
CM-C	Corrugated	Corrugated tube 150mm with Elbow 15F/22M and 22F Connector
CM-E	Expandable	Expandable tube 150mm with Elbow 15F/22M and 22F Connector
CM-S	Smoothbore	Smoothbore tube 150mm with Elbow 15F/22M and 22F Connector

CPAP Tube CPAP

Material: polypropylene (PP)
 Connector ID: 22mm (Injection Molded)
 Length: in general 1.8M, but can be customized (300mm—3000mm)
 Application: CPAP (Continuous Positive Airway Pressure), Sleep Apnea Tubing.

CPAP Mask CPAP

1. Made of medical grade PVC, soft and smooth.
2. For the treatment of obstructive sleep apnea by using continuous positive airway pressure.
3. Good Seal when fitted, providing comfort to patients.
4. PEEP Valve and Headgear can be optional equipped.
5. S, M, L three sizes available.

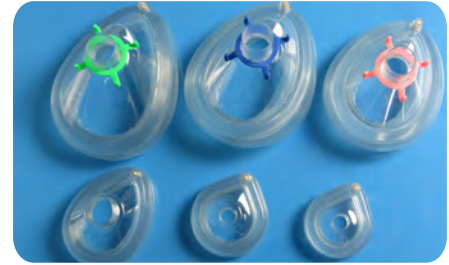

Item No.	Size (#)
CMP-S	S
CMP-M	M
CMP-L	L

+* PVC Anesthesia Mask pvc

1. Made of medical grade PVC, clear and soft.
2. Seal tight against mouth.
3. Color - coded to easily identify sizes.

AEM6	6

+* Silicone Anesthesia Mask

1. Made of imported medical grade silicon, highquality.
2. Leak-proof, soft and comfortable seal.
3. High transparency provides better patient observation.
4. It can be reused by autoclaved sterilization at 134 °C temperature.

Item NO.	Size	Patient size
AMS0	0	neonate
AMS1	1	infant
AMS2	2	child standard
AMS3	3	small adult
AMS4	4	medium adult
AMS5	5	large adult

+* CPR Mask CPR

1. Made of medical grade PVC, soft and smooth.
2. Suitable for adult, children and infant.
3. Equip with a replaceable one-way valve with biological filter in one housing.
4. PVC gloves and alcohol pad can be optional equipped.
5. PP case and Nylon bag two packages available.

✚✚ Oxygen Mask / Nebulizer Mask

1. Made of medical grade PVC.
2. Adjustable nasal clip.
3. Optional oxygen supply tubing available.
4. Nebulizer Mask is available, equipped with a 6ml or 20ml nebulizer.

✚✚ Disposable Infusion Pump —

1. For clinical pain-easing treatment, single use.
2. It uses the flexibility of the silicone reservoir to allow for a constant minimal drop control through the capillary catheter, guarantee a safe efficient continuous pain-easing infusion.
3. Used for continuous minimal infusion during clinical treatment.
4. Light-Shield infusion pump is available for photosensitive drugs.

✚✚ PVC Manual Resuscitator PVC

1. This product is intended for pulmonary resuscitation for patients.
2. The accessories includes PVC mask (1), oxygen tubing (1), reservoir bag (1), opener (1) and airways (3).
3. For single use only, 100% latex free.

Item No.	Size
PMR-L	Adult
PMR-M	Pediatric
PMR-S	Infant

✚✚ Silicone Manual Resuscitator

1. The product includes silicone resuscitator (1), silicone face mask (1), oxygen tube (1), reservoir bag (1), airways (3) and mouth opener (1). Mainly used for pulmonary resuscitation and artificial respiration.
2. Three sizes available, suitable for adult, child and infant.
3. Can be repeated use, 100% latex free.

Item No.	Size
SMR-L	Adult
SMR-M	Pediatric
SMR-S	Infant

✚✚ Guedel Airway

1. Made of semi-rigid, non-toxic polyethylene.
2. Guedel style enclosed center channel.
3. Color coded to easily identify sizes.

Item No.	Size (#)	Length (mm)	Color Code

✚✚ Silicone Round Channel/Fluted Drains

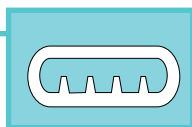

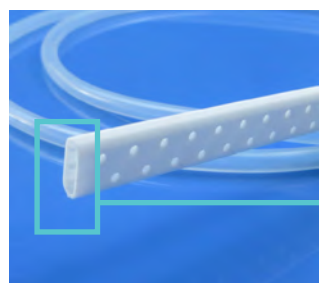

1. Made of imported medical grade silicone.
2. Utilize internal channels or fluted, to swiftly remove exudate. Independent channels facilitate drainage and reduce risk of occlusion.
3. Made by one time, no connector ensures patients' comfort upon removal.
4. Radio-opaque line through the length for X-ray visualization.
5. Available with or without "Three Face" stainless steel trocar.

Item No.	Size (Fr)	with connector(S/L)
RFD10	10	S
RFD15	15	without
RFD19	19	without
RFD24	24	L
RFD28	28	L
Remark	Size and length can be customized.	

✚✚ Silicone Flat Perforated Drains

1. Made of imported medical grade silicone.
2. Combines a transparent silicone round tube and white perforated flat drain.
3. The inner wall of implanted flat segment with tooth-like structure facilitates drainage and lower the risk of occlusion.
4. Radio-opaque line through the length for X-ray visualization.
5. Available with or without "Three Face" stainless steel trocar.

Item No.	Size (mm)
FD07	7
FD10	10
FD13	13
Remark	Size and length can be customized.

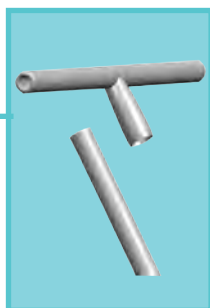

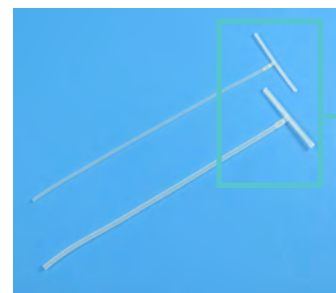

✚✚ Silicone Flat Fluted Drains

1. Made of imported medical grade silicone.
2. Flat four channels shape allows for greater multi-channel drainage.
3. Channel drain offers important advantages over regular perforated drains by capillary effect.
4. Radio-opaque line for easy X-ray visualization.
5. Available with or without "Three Face" stainless steel trocar.

Item No.	Size (mm)
FFD07	7
FFD10	10
Remark	Size and length can be customized.

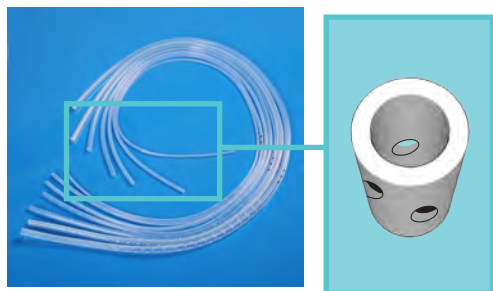

✚✚ Silicone T Biliary Drains

1. Made of imported medical grade silicone.
2. T-shape silicone tubes for biliary drainage.
3. Total length is 35 cm and the horizontal part is 9.5 cm.
4. Radio-opaque line for easy X-ray visualization.

Item No.	Size (Fr)
TBD012	12Fr
TBD018	18Fr
Remark	Size and length can be customized.

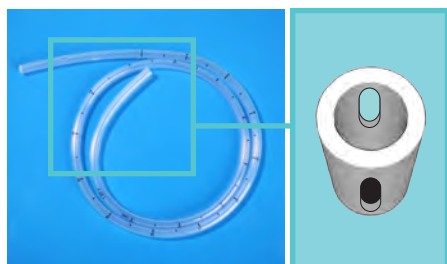

✚✚ Silicone Round Perforated Drains

1. Made of imported medical grade silicone.
2. Radio-opaque line through the length for X-ray visualization.
3. Available with or without "Three Face" stainless steel trocar.

Item No.	Size (Fr)	With Connector (S/L)	Item No.	Size (Fr)	With Connector (S/L)

✚✚ Drainage Bag

1. The drainage bag is designed to be connected with our silicone reservoir to collect, store and record the fluid after the surgeries.
2. Be equipped with internal one-way valve to prevent reflux.
3. Be equipped with an extension PVC tube and a luer lock to be connected with our silicone reservoir.
4. Can be replaced individually.

Item No.	Size (ml)
DB1000	1000

✚✚ Silicone Reservoir

Item No.	Size (ml)	Graduation (ml)
SR100S	100	25/50/75/100

SR200S	200	50/100/150/200
SR400S	400	100/200/300/400

1. Made of imported medical grade silicone.
2. Provided with internal anti-reflux valve.
3. Bulb silicone walls provide easy activation of suction.
4. Regular system is to be used together with silicone flat drains, but we also recommend innovative solutions which are combined with our round fluted drains or round perforated drains.

+ Closed Wound Drainage System

Item No.	Size (ml)
SDS100	100
SDS150	150
SDS200	200
SDS400	400

1. This product includes silicone reservoir, silicone flat drains or other silicone drains and stainless steel trocar.
2. Can use separately or using trocar for insertion and combining with silicone reservoir for fluids suction and collection.
3. Provided with internal anti-reflux valve to prevent backflow of fluid to the patient.
4. Silicone bulbs are suitable for plastic surgery, neurosurgery, orthopaedics, OB/GYN surgery and laparoscopic surgery.

+ Closed Wound Drainage System with Drainage Bag

1. This product includes silicone reservoir, silicone round drains or other silicone drains, stainless steel trocar and drainage bag.
2. Silicone bulbs are suitable for plastic surgery, neurosurgery, orthopaedics, OB/GYN surgery and laparoscopic surgery.
3. The drainage bag is designed to be connected with our silicone bulb reservoir to collect, store and record the fluid after the surgeries.
4. The drainage bag with the capacity of 1000ml, is equipped with internal one-way valve to prevent reflux.

+ Closed Wound Drainage System (Spring) PVC

1. This product includes 3-spring evacuator, PVC tubing, Y connector, PVC drainage tube and stainless steel trocar.
2. The design of 3-spring evacuator minimizes the Collapse-Resistance.
3. The PVC drainage tube inside can be replaced by our other silicone drains, If needed.

+ Menstrual Cup

This menstrual cup is reusable, made of medical grade silicone, which is widely applied in medical care products such as infant nipples, medical catheters etc, because it is toxic free and allergy free, safe to use. It is designed to be folded and inserted into your vagina to collect your menstrual blood. Once inside, it opens up and sits lower than a tampon. It is held in place by your vagina muscles. The menstrual cup is intended to be emptied, rinsed and reinserted every 4-8 hours.

Advantages of menstrual cup

1. Keep cool and safe.
2. Comfortable, clean and easy to use.
3. 100% medical grade silicone, no BPA or latex.
4. Reusable, eco-friendly and economical.
5. Leak-free protection for up to 10 hours at a time.
6. Long-term use can reduce the risk of gynecological inflammation.
7. Worry-free when travelling, swimming or exercising during menstrual period.

Recommended for women who have never delivered vaginally or have delivered by caesarean section.

Recommended for women who have delivered vaginally.
