Completion Date: _____

Description of Improvement. Include diagram, picture, colors, drawing, brochure, types of materials, dimensions or other information that will be helpful to understanding your request. Requests for paint color changes MUST include the SCHEME Number and Body/Trim/Accent Names and Codes.

I understand that approval of the Association is required in advance to proceed. I also understand that the approval does not constitute approval of the local City/County building departments and that a Building Permit may be required. I agree to complete all proposed improvements promptly after receiving approval. I understand that any change in drainage and elevation must not negatively impact neighboring properties. I understand that any change in drainage and elevation may affect builder warranties and are not the responsibility of the HOA and must contact the builder directly for verification. The Association assumes no responsibility for reviewing, nor shall its approval of plans and specifications be deemed approval of, any project's safety (structural or otherwise), engineering, soundness, or conformance with building or other codes, or other laws or regulations. I have read the Idyllwilde Association Covenants and Regulations and will comply with all requirements. I agree to provide additional information if it is requested.
