Yes / no

**IMPORTANT-PLEASE READ!**

All kittens/cats will be neutered/spayed, vaccinated against rabies and distemper, dewormed and a treatment of revolution for fleas and ear mites. KSCR is not responsible for vet bills once the kittens/cats has been adopted. It is recommended they you get your kittens/cats another dose of dewormer and flea treatment. You can order Profender dewormer or revolution flea treatment at [pet-i-supply.com](http://pet-i-supply.com).

The kittens/cat has been deemed healthy by the Doctor and has no health concerns at time of vetting. I don't know what their future health issues will be, all I can hope for is they will live a long healthy life.

If, for whatever reason you can no longer keep the cat, the cat can be returned back to Kitchener Stray Cat Rescue, no questions asked.

I highly recommend that you add your cat to your LAST WILL OF TESTIMENT as most cats are dumped off at the humane society/or outside after a death. The cat can be safely returned back to KSCR no surrender fee required and will be well taken care until a forever home is found.

If the cat/kitten you adopted is not doing well please contact me immediately!

**Adoption Form Authenticity Agreement**

It is my intention to integrate any cat I may adopt into my home and life as a pet and companion. I understand that adoption entails a commitment to provide responsibly for the cat's needs for the rest of its life. I am over age 18, and I am ready to make this commitment. I am aware that my cat may live 15 plus years, that a pet's basic needs alone cost up to \$500.00-\$800.00 per year, including food and annual checkups for wellness and that my cat will require time each day for

training, grooming, exercise, and interaction.  
I certify that the above information is true. I understand that false information will be cause for denial of this application and that Kitchener Stray Cat Rescue reserves the right to deny any adoption for the sake of the cat's welfare.
