IMPORTANT-PLEASE READ!

All cats/kittens will be Neutered/Spayed, vaccinated (rabies), dewormed and a treatment of revolution for fleas and ear mites. The cat/kitten has been deemed healthy by the veterinarian doctor and has no health concerns at time of vetting. All cats will be given a general assessment the day of departure and adopter must sign the assessment form. It is not uncommon when a cat/kitten first comes to your home they could experience cold like symptoms, do not eat, drink or use the litter box for a couple of days due to stress. Please watch them closely and if symptoms continue after a couple of days, contact the rescue for advice and the next steps to take. Unless you have received written approval from the rescue, we will not be responsible for any veterinarian treatment after the date of adoption. As with any animal we cannot know of any underlying illness or what their future health issue(s) will be; we only hope they live a long, healthy and happy life.

Please sign here that you read and agree the above statement: _____

RETURN POLICY

Within 30 days of adoption – the cat can be returned and a full refund given.

After 30 days of adoption – the cat can be returned with no refund will be issued.

Adoption Form Authenticity Agreement

It is my intention to integrate any cat I may adopt into my home and life as a pet and companion. I understand that adoption entails a commitment to be responsible for the cat's needs for the rest of its life. I am over age 18, and I am ready to make this commitment. I am aware that my cat may live 15 plus years, that a pet's basic needs alone cost up to \$500 to 800+ per year, including food and annual checkups for wellness and that my cat will require time each day for training, grooming, exercise, and interaction.

I certify that the above information is true. I understand that false information will be cause for denial of this application and that Kitchener Stray Cat Rescue reserves the right to deny any adoption for the sake of the cat's welfare.
