

NP Ultra

No More Beyond

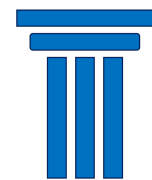

Our Vision

The Latin phrase **Ne Plus Ultra** literally means:

"no more beyond"

When something is **ne plus ultra**, it's the very best or the highest point that can be reached, which is what we strive to deliver to our customers

NP Ultra

No More Beyond

Economic, social, and environmental

Sustainable technology isn't a single objective;
it's a framework of digital solutions that drives ESG
outcomes.

Make the most of it.

Gartner 2022

Digital Infrastructure

Managing infrastructure and workloads across the hybrid landscape of data centres, colocation, edge and public cloud

Digital Experience

Products and services that provide meaningful and relevant improvements to the digital business and users alike

Digital Security

Gain visibility and control to defend digital infrastructure and protect business information and reputation

THREATCLQUD

Understand and prioritise your greatest cloud risks

-  **Vulnerabilities**
-  **Misconfigurations**
-  **Data Exposure**
-  **Authentication & Entitlements**
-  **Malware**
-  **API & Web Application Exposure**
-  **Lateral Movement Risks**

Dev Ops

- **DevOps:** An end-to-end DevOps culture delivered in a phased, digestible program designed to maximise value for our clients; delivered quickly and consistently to exacting quality standards.
- **Product Management:** Deliver the right digital solution to your users and customers. We'll build roadmaps that delivers a product vision that is proven to solve your customer's & business's challenges.
- **Design UX/UI:** We are passionate about designing and developing products and interfaces that users love to use. From wireframes to prototypes, we streamline experiences that best suit the user's needs.

Data Ops

- **Automate:** the collection, curation, analysis and sharing of information at scale, across enterprise stakeholders.
- **Execute:** intelligent, policy-based data services to accelerate innovation, supported by the vital IT and cultural change.
- **Unleash:** a proven, cloud-agnostic methodology and industry expertise to achieve your vision quickly.
- **Industry expertise:** to achieve your vision and speed enterprise-wide collaboration and decision-making.

Professional Services & Managed Services

We offer a wide range of agile IT services to complement & enhance your existing business needs.

We pride ourselves on providing flexible and affordable packages without compromising on quality.

INSTALLATION

- Storage Configuration
- Compute Setup
- Network Deployment
- Data Migration
- Database Configuration
- Documentation
- Skills Transfer and Testing
- System Upgrades
- Firewall Configuration

Cloud

- Azure
- Microsoft 365
- Assessments
- Design
- Deployment
- Migration
- Automation
- Disaster Recovery
- Backup

Support

- Infrastructure
- Managed Service
- Hardware / Break/Fix
- Auditing
- Networking
- Security
