INFINITY SPARK SECURITY

Endpoint & Mobile | Email & Office | Network

WHAT DO WE PROTECT

Infinity Spark includes:

- **The Quantum Spark** family of NGFWs feature best-in-class threat protection, which is easy to deploy, manage and maintain. Integrates communication and security into an “all in one” security gateway with “out-of-the-box security” using industry-leading threat prevention with a 99.7% malware block rate.
- **Harmony Email & Collaboration** offers complete protection for SMBs cloud email and collaboration applications. The advanced solution combines Anti-Phishing, including URL inspection and file sandboxing and sanitization (CDR), for incoming and internal Office 365 and Google Suite emails
- **Harmony Endpoint** delivers advanced threat protection for known, unknown and zero-day malwares, Sandbox Emulation and Extraction, enhanced by automated endpoint forensics analysis, access control and Web Protection features
- **Harmony Mobile** offers comprehensive, enterprise-grade mobile security that protects iOS and Android devices, apps, and the networks they depend on from advanced mobile threats. Protects against OS vulnerabilities, MiTM attacks and malicious apps

Availability of the Infinity Spark is through authorized distributors only Contact your Check Point team for more information
